BUSINESS DIVISION
Tyler R. Sturdevant, Chief

ACKNOWLEDGMENTS—Many persons participated in the various activities of the 1977 Census of Retail Trade. Primary direction of the program was performed by **Shirley Kallek**, Associate Director for Economic Fields, and **Richard B. Quanrud**, Assistant Director for Economic and Agriculture Censuses.

This report was prepared in the Business Division under the general direction of **Tyler R. Sturdevant**, Chief. **Michael G. Farrell**, Assistant Chief for Census Programs (until May 1980), and **Bobby E. Russell**, his successor, were responsible for overall planning and management of the Division's census programs. They also coordinated activities with other divisions.

Planning and implementing this report were under the direction of **Bobby E. Russell**, Chief, Retail Census Branch (until October 1980), and **Dennis P. Pike**, his successor, with primary staff assistance by **Mark E. Wallace, Merrihew Scarborough, Gary E. Swenson, Scott Dillion, Anne M. Sigda, John H. Penn, Jr.**, and **Mark Hines**. **Alvin H. Barten**, assisted by **Sidney O. Marcus**, coordinated activities, specifications, and procedures with the other economic censuses. Computer programs were developed under the general supervision of **Heyward D. Glisson**, Assistant Division Chief for Data Processing. **William C. Wester**, Chief, Census Programming Branch, assisted by **Judith McKay** and **George D. Minier**, was primarily responsible for planning and implementing the programs. **Ana Arguelles, Donald Badgley, Robert Freundlich, Diane Guarino, Robert J. Hemmig, William E. Jagg, Ann Liau, Nilda Martinez, Steven McCraith, Andrew Nelson, Janice Sagan**, and **Leonard Sammarco** programmed the tables. **Nash J. Monsour**, Assistant Division Chief for Research and Methodology, assisted by **Mitchell Trager** and **Michael Z. Shimbert** of the Program Research and Development Branch, provided guidance on the estimation procedures. Staff assistance was provided by **Paul Shapiro**, Senior Statistican, assisted by **Sol D. Helfand**. **Carl J. Bostrom**, Assistant Division Chief for Current Programs, provided valuable assistance in coordinating the current survey interface.

Systems and procedures for mailout and clerical processing were developed in the Economic Surveys Division by **Roger H. Bugenhagen**, Chief, assisted by **Andrew L. Grieco, Robert E. Crowther**, and **Joel Richardson**. Clerical procedures were developed by **Robert Brand**, assisted by **Haydn R. Mearkle, Helen L. Barton**, and **Beverly M. Eng**. **Walter E. Neece**, assisted by **C. Harvey Monk**, had staff responsibility for industry classification procedures. Administrative record processing specifications were developed by **Lawrence A. Blum** and **John M. Sullivan** under the direction of **Samuel Schweid**. Electronic computer programs for check-in and administrative records were developed and supervised by **Robert G. Willner** and **Donald H. Danbury** under the direction of **Paul E. Poissant**. Data input procedures were developed by **Leonard M. Tauber** and quality control procedures by **Jean F. Biggs**.

Forms design was preformed in the Administrative Services Division, **Henry J. Husmann**, Chief (until August 1980). The entire staff of the Forms and Mail Management Branch made signficant contributions in the planning, design, review, and composition of the forms.

Within the Publications Services Division, many individuals made significant contributions in publication planning and design, editoral review, composition, and printing procurement. These operations were performed under the direction of **Raymond J. Koski**, Chief, assisted by **Milton S. Andersen, Gerald A. Mann, Wayne H. Massey, Helen M. Curtis, Jacqueline A. Gans, John Overby, Nicholas Preftakes, Rosemary B. Vance, Arlene C. Duckett, Charles C. Huntley**, and **Robert Warunek**.

Clerical and data keying operations were performed in the Data Preparation Division at Jeffersonville, Ind., under the direction of **Don L. Adams**, Chief, assisted by **Robert L. Allen, Rebecca Lamon**, and **George Wilson**. The clerical geocoding effort was directed by **Wendell McManus**.

The Geographic coding procedures and computer programs were developed in the Geography Division under the direction of **Jacob Silver**, Chief (until August 1980) assisted by **Silla G. Tomasi, Gerald Cranford, Terence D. McDowell, Dan Harding, Phyllis Krause, Walter Yergen**, and **Rose J.A. Quarato**.

Computer processing was directed by **C. Thomas DiNenna**, Chief, Computer Services Division. **John E. Halterman, Jessee J. Verdeja, Willie E. Clark**, and **Norman W. Larsen** provided staff assistance.

Lawrence Cox, Statistical Research Division, and **Lawrence E. Cornish**, Systems Software Division, made significant contributions by developing special-purpose computer programs for disclosure analysis and publication preparation.

Donald E. Young, Lawrence H. Lyons, and **Robert S. Taylor**, of the Office of the Assistant Director for Economic and Agriculture Censuses, participated in overall planning and review of the census operations.

Special acknowledgment is also due the many businesses whose cooperation has contributed to the publication of these data.

AIDS TO TABLE USE

ALL ESTABLISHMENTS VERSUS ESTABLISHMENTS WITH PAYROLL

Most retail trade tables in the Geographic Area Series and the Establishment and Firm Size Reports present data for two major categories of establishments: All establishments and establishments with payroll. Tables in the Merchandise Line Sales Series and the Miscellaneous Subjects report, however, present data only for establishments with payroll.

The term "all establishments" includes those with no payroll ("mom and pop" operators) and those with payroll. Only establishments with payroll were mailed census questionnaires.

DOLLAR VALUES

All dollar values presented in this report are expressed in current dollars, i.e., 1977 data are expressed in 1977 dollars.

ABBREVIATIONS AND SYMBOLS

Coverage symbols used in the tables:

- A 90 percent or more reporting.
- B 80 to 89 percent reporting.
- C 70 to 79 percent reporting.
- D 60 to 69 percent reporting.
- E Less than 60 percent reporting.

Abbreviations and other symbols used throughout this publication:

(D)	Withheld to avoid disclosing data for individual companies.
ML	Merchandise line.
(NA)	Not available.
(NC)	Not comparable.
n.e.c.	Not elsewhere classified.
pt.	Part.
SIC	Standard Industrial Classification.
SMSA	Standard Metropolitan Statistical Area.
SCSA	Standard Consolidated Statistical Area.
(X)	Not applicable.
(Y)	Data withheld due to insufficient reporting of merchandise lines or to avoid disclosing data for individual companies. Some data are shown at a lower kind-of-business level.
(Z)	Less than 0.05 percent.
—	Zero.
+	Detail may not add to total due to rounding.
#	Merchandise line detail withheld due to insufficient reporting.
*	Includes sales from catalog order desks.
**	Data not provided because establishments with no payroll are classified only at the next higher level.
***	The coverage symbol shown for "Reporting sales by broad merchandise line" represents the sales of establishments reporting broad merchandise lines as a percent of total sales of all establishments in the kind of business. The coverage symbol(s) for "Reporting detail within the specified broad merchandise line" represent(s) the sales of establishments reporting detail lines within the particular broad line as a percent of the estimated sales of establishments handling the broad line within the kind of business.
‡	Data provided only for establishments with payroll. Establishments without payroll are included at the next broader kind-of-business level.

INTRODUCTION

HISTORY OF THE ECONOMIC CENSUSES

The economic censuses are comprehensive and periodic canvasses of the Nation's industrial and business activities. Taken by the Census Bureau, a part of the U.S. Department of Commerce, the censuses provide a detailed statistical profile of a large segment of the national economy.

The first economic census of the United States was conducted as part of the 1810 decennial census, when inquiries on manufacturing were included with the census of population. All other decennial censuses through 1900, except in 1830, contained questions on manufacturing. In 1904, the quinquennial census of manufacturing began. It was conducted every fifth year until 1920 and every second year from 1921 to 1939. Although some distributive trade data were collected in the decennial census of 1840, the first census of business was taken in 1929. It covered only retail and wholesale trades, but beginning with the second business census in 1933 and in succeeding censuses, various services also have been included. Business censuses were subsequently taken for 1935 and 1939 and after a wartime interruption were resumed in 1948. Beginning in 1954, and continuing in the censuses of 1958, 1963, 1967, and 1972, the business censuses have been conducted concurrently with the censuses of manufactures and mineral industries. Beginning with the 1967 censuses, Congress authorized the economic censuses to be taken at 5-year intervals covering years ending in "2" and "7".

USES OF THE ECONOMIC CENSUSES

The economic censuses are the primary source of facts about the structure and functioning of the economy and, therefore, provide information essential for both government and business. The censuses furnish an important part of the framework for such composite measures as the national accounts. In forecasting and planning, they are especially useful in analyzing the national product in terms of the transactions that determine its size and composition. The economic censuses also provide weights and benchmarks for indexes of industrial production, productivity, and price, all of which are essential for understanding current economic developments.

Manufacturers and distributors make widespread use of the economic censuses in establishing measures of their potential markets by areas, kinds of businesses, and kinds of products. Management in various industries and trades get facts from them for use in economic or sales forecasting, analyzing sales performance, laying out sales territories, allocating advertising budgets, and locating plants, warehouses, and stores. Trade organizations use census statistics for insight into changes in the structure of industry. State and local governments use the geographic detail that describes the patterns of economic change in individual communities. Local business organizations and research groups do too.

Following every census, reports are purchased by thousands of businesses and other users; likewise, census facts are widely disseminated by trade associations, business journals, and the daily press. Volumes containing census statistics are available in most major public and college libraries.

AUTHORITY AND SCOPE OF THE ECONOMIC CENSUSES

The economic censuses are required by law under title 13 of the United States Code, sections 131, 191, and 224, which direct that they be taken at 5-year intervals. The 1977 Economic Censuses covered manufacturing, mining and quarrying, construction industries, retail trade, wholesale trade, service industries, and selected transportation activities. The next economic censuses are scheduled to be taken in 1983 covering the year 1982.

CENSUS OF RETAIL TRADE

The 1977 Census of Retail Trade, part of the 1977 Economic Censuses, covered retail trade as defined in the Standard Industrial Classification (SIC) Manual.[1] It included all establishments primarily engaged in selling merchandise for personal or household consumption and rendering services incidental to the sale of the goods. It excluded governmental organizations classified in the covered industries except for liquor stores operated by State and local governments. Data for direct sellers (SIC 5963) with no paid employees and post exchanges, ship stores, and similar establishments operated on military posts by agencies of the Federal Government are not included. The basic tabulations in this report do not include data for central administrative offices (CAO's), captive warehouses, and other units which service or are auxiliary to retail establishments within the same organization. Data for CAO's and auxiliaries will be found in a subsequent report issued as part of the subject series of the 1977 Enterprise Statistics survey.

For the 1977 Census of Retail Trade, large- and medium-size firms, plus all firms known to operate more than one establishment, were sent questionnaires to be completed and returned to the Bureau by mail. For most very small firms, including those with no paid employees, data from existing records of the Internal Revenue Service (IRS) and the Social Security Administration (SSA) were used instead. The two sources produced basic information on location, kind of business,

[1] **Standard Industrial Classification Manual: 1972.** For sale by Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Stock No. 4101-0066. Price $6.75. 1977 Supplement. Stock No. 003-005-00176-0. Price 90 cents.

volume of sales and payrolls, and number of employees. In addition, more detailed information for selected kinds of business was obtained on the various questionnaires.

Appendix A gives a more detailed explanation of census coverage and methodology.

CENSUS DISCLOSURE RULES

In accordance with Federal law governing census reports, no data are published that would disclose the operations of an individual establishment or business. However, the number of establishments in a kind of business classification is not considered a disclosure so this information may be given even though other information is withheld.

GEOGRAPHIC AREAS COVERED

This volume presents specialized data for selected kinds of business in selected geographic areas.

Volume II, Retail Trade—Geographic Area Statistics, presents data by kind of business for the following areas:

1. The United States as a whole.
2. Each State.
3. Each standard consolidated statistical area (SCSA) defined as of December 31, 1977, meeting the criteria outlined in the 1975 Standard Metropolitan Statistical Areas Manual.[1] An SCSA is an area used to facilitate the presentation and analysis of data for concentrations of metropolitan populations. It includes two or more contiguous standard metropolitan statistical areas which meet specific criteria of size, urban character, integration, and contiguity of urbanized areas.
4. Each standard metropolitan statistical area (SMSA) defined as of December 31, 1977, meeting the criteria outlined in the 1975 Standard Metropolitan Statistical Area Manual.[1] An SMSA is an integrated economic and social unit with a large population nucleus. Each SMSA consists of one or more counties meeting standards of population and metropolitan character, except in New England where towns and cities rather than counties are the basic geographic units.
5. The 250 largest counties.
6. The 250 largest cities.

In addition to the appropriate State, SCSA, SMSA, and selected county and city data included in the individual State reports, as well as in the U.S. Summary report, the State reports include data by kind of business for the following additional areas:

1. The area within the State outside standard metropolitan statistical areas (available only on microfiche; see below).
2. Each county or county equivalent.[2]
3. Each municipality of 2,500 inhabitants or more incorporated as cities, boroughs, villages, or towns.[2] In addition, the following areas are included:
   a. Special economic urban areas (SEUA's):
      1. Townships in New Jersey and Pennsylvania with 10,000 inhabitants.[3]
      2. Towns in New England with an urban population (based on the census of population definitions) of 2,500 inhabitants or more or a total population of 10,000 or more.[3]
   b. Census-defined unincorporated places with 25,000 inhabitants or more.[3]

   For the economic censuses, boroughs in Alaska and New York and towns in New York and Wisconsin are not included.

SPECIAL TABULATIONS

Special tabulations of data collected in the 1977 Census of Retail Trade may be obtained on computer tape or in tabular form. The data will be in summary form and subject to the same rules prohibiting disclosure of confidential information (including name, address, kind of business, or other data for individual business establishments or companies) as are the regular publications.

Special tabulations are prepared on a cost basis. A request for a cost estimate, as well as exact specifications on the type and format of the data to be provided, should be directed to the Chief, Business Division, Bureau of the Census, Washington, D.C. 20233.

To discuss a special tabulation before submitting specifications, call 301-763-5282.

MICROFICHE AND COMPUTER TAPES

The data in this volume are available on microfiche, and, except for the Miscellaneous Subjects chapter, also on computer tapes.

Microfiche reports and computer tapes are sold by the Data User Services Division, Customer Services Branch (Microfiche/Tapes), Bureau of the Census, Washington, D.C. 20233.

SUMMARY OF FINDINGS

Results of the 1977 Census of Retail Trade show that the 1,582,390 retail establishments which operated the entire year had sales totaling $683 billion. Of this number, 3.9 percent (62,091) had sales of $2 million or more and accounted for 50.2 percent ($343 billion) of the total sales of entire-year operators. In 1972, 2.1 percent of the entire-year operators had sales of $2 million or more and accounted for 39.9 percent of total sales.

Among leading retailers, the average sales of a department store operating the entire year of 1977 was $9 million; a new car dealer, $4.1 million; and a grocery store, $.9 million. Among low-volume retailers, the average sales for a florist was $89 thousand; drinking places, $87 thousand; gift shops, $84 thousand; and used merchandise stores, $60 thousand. The average sales figure for all retail establishments operating during the entire year 1977 was $432 thousand; however, 73.6 percent of these establishments generated less than $300 thousand in sales.

The "employment-size" data shown in this report are based on the number of paid employees for the pay period including March 12, 1977. The results reveal that the number of establishments with paid employees which operated the entire year was 1,118,605. These establishments, representing 70.7 percent of all retail establishments operated the entire year, accounted for 97.2 percent of sales. In 1972, 67.8 percent of these establishments had paid employees and accounted for 96.3 percent of the sales.

Although only 0.9 percent of the retail establishments with paid employees had 100 employees or more, they accounted for 16.7 percent of total sales and 18.1 percent of total employment. Department stores had 5,162 establishments with 100 employees or more; eating places, 1,525; grocery stores, 1,292; and new car dealers, 726. These four kinds of business accounted for 87.5 percent of all retail establishments with 100 employees or more.

In 1977, there were 1,567,071 firms operating 1,855,068 retail establishments. Over 97 percent of these firms operated only one establishment (single units), but they accounted for only 52 percent of the sales of all retail firms in business at the end of 1977. Multiestablishment firms, on the other hand, operated only 17.9 percent of the retail establishments but accounted for 48 percent of sales. Multiestablishment operators averaged $1,026,992 in sales at their locations while firms operating a single establishment averaged $242,433. This meant that for each sales dollar a single-establishment firm generated, a location of a multiestablishment firm generated $4.24.

Multiestablishment firms operating more than 100 retail stores were small in number—347—but significant in the market place. They operated 7.7 percent of the Nation's retail establishments and received 26.8 percent of its retail sales dollars. They also employed 27.6 percent of the paid retail work force and remunerated them with 28.2 percent of the total retail payroll.

Within most kinds of business, there was a minimal change in percent of sales attributed to the 4, 8, 20, and 50 largest firms between the 1972 and 1977 censuses. For example, at the retail trade, total level, the 4 largest firms accounted for 6.0 percent of total sales in 1972 compared to 6.1 percent in 1977; the 8 largest, 9.0 compared to 9.2; the 20 largest, 13.5 compared to 13.8; and the 50 largest, 18.9 compared to 18.6. Conversely, the four largest gas station firms increased their share of the market from 3.7 to 5.1 percent of sales while the 50 largest increased from 10.3 to 18.4 percent. The four largest department store firms accounted for 44.0 percent (up from 38.8) and the 50 largest drug store firms accounted for 45.8 percent (up from 36.1) of sales.

CHART 1.

Percent Distribution of Establishments and Sales by Sales Size of Establishments: 1977

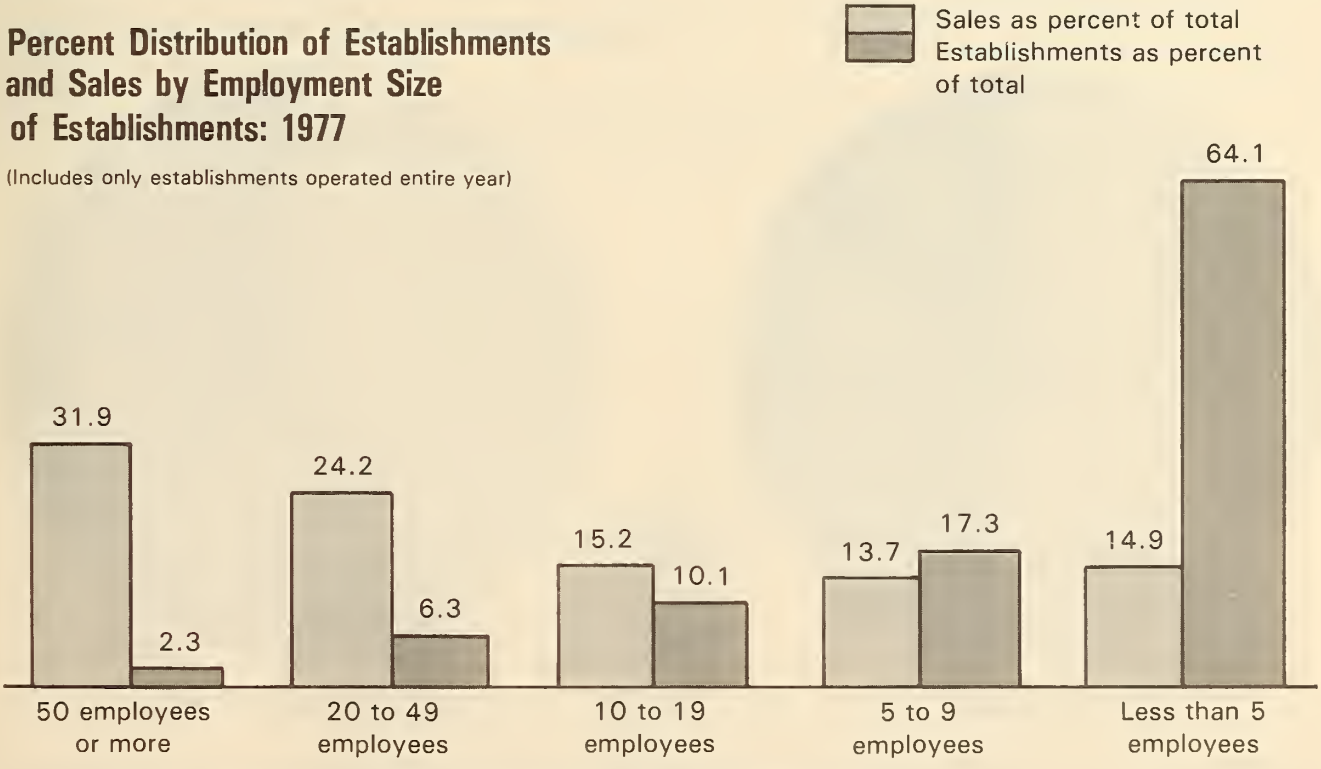

(Includes only establishments operated entire year)

CHART 2.

Percent Distribution of Establishments and Sales by Employment Size of Establishments: 1977

(Includes only establishments operated entire year)

Note: Employment size is based on number of paid employees for pay period including March 12.

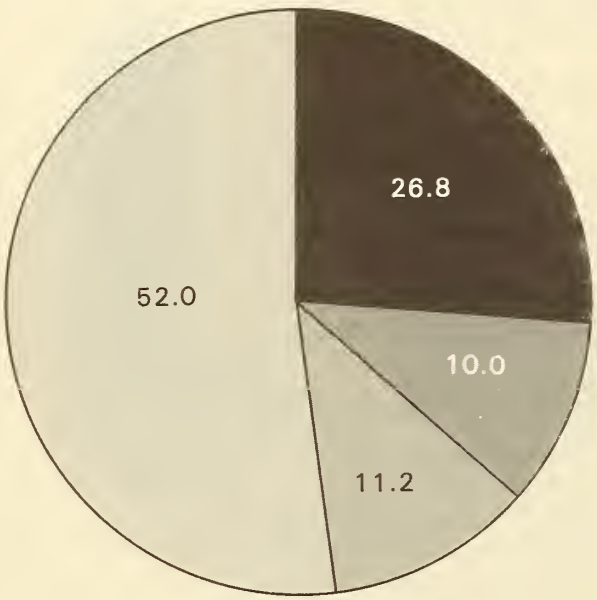

CHART 3.

Percent Distribution of Sales by Firm Size for Selected Kinds of Business: 1977

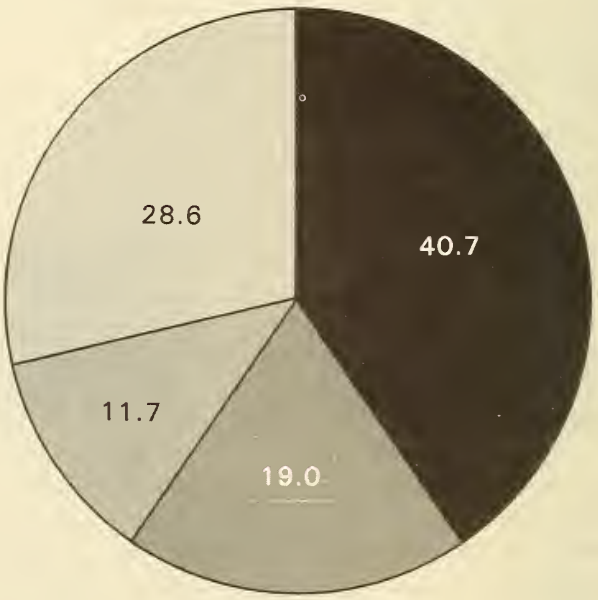

(Data do not include separate central administrative offices, separate auxiliary operations, or establishments classified in other than retail trade which are operated by firm. Includes only firms in business at end of year)

Sales as a percent of total accounted for by—

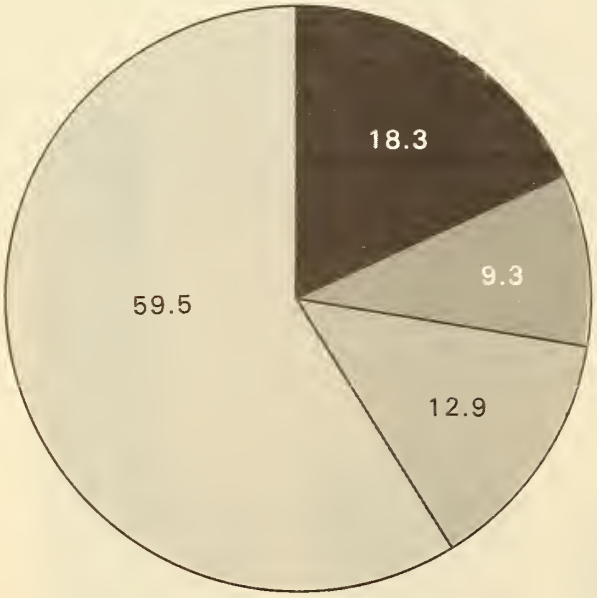

- Firms with one establishment
- Firms with 2 to 10 establishments
- Firms with 11 to 100 establishments
- Firms with 101 establishments or more

Retail trade

Grocery stores

Eating places

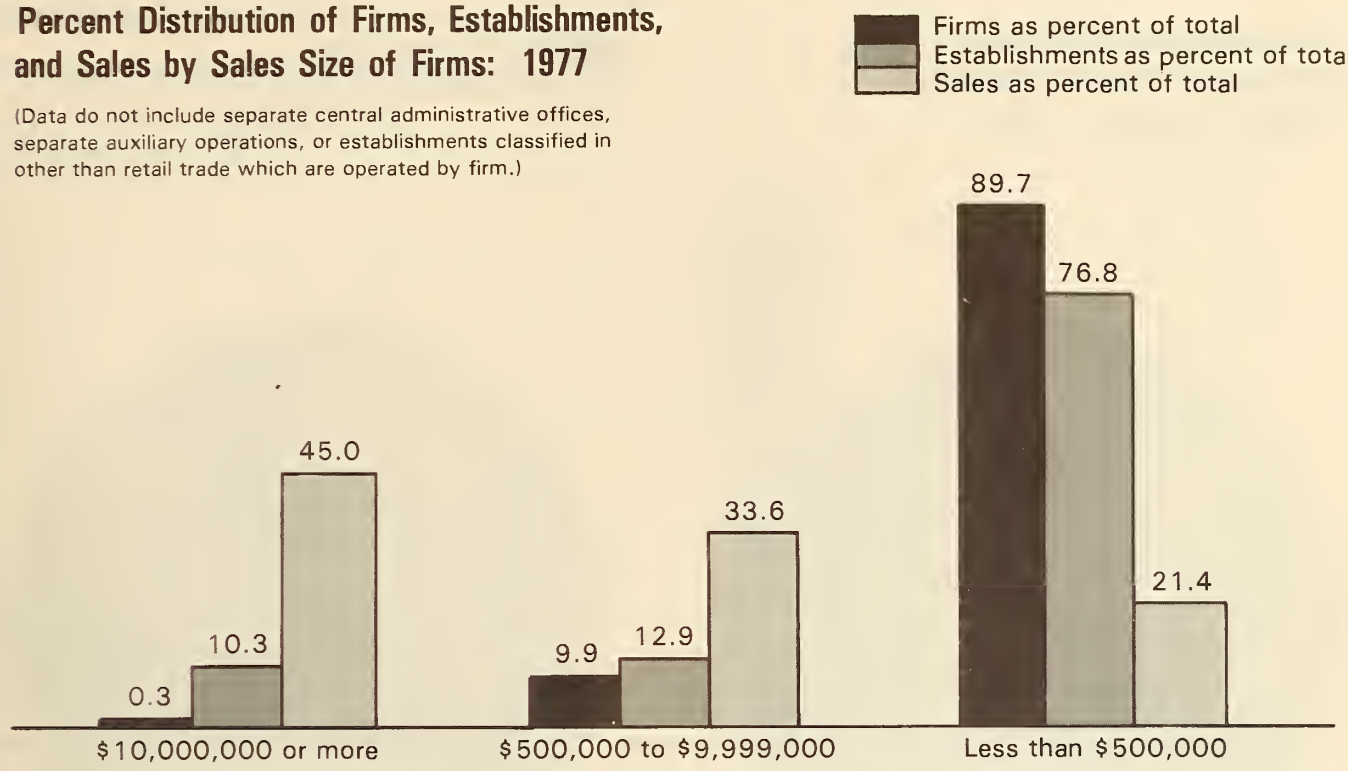

Drug and proprietory stores

Note: A firm's size is based on total number of retail establishments in business at end of year operated by owning firm in kind-of-business classification, group, or total for which data are presented. For detailed explanation, see appendix A.

CHART 4.

Percent Distribution of Firms, Establishments, and Sales by Sales Size of Firms: 1977

(Data do not include separate central administrative offices, separate auxiliary operations, or establishments classified in other than retail trade which are operated by firm.)

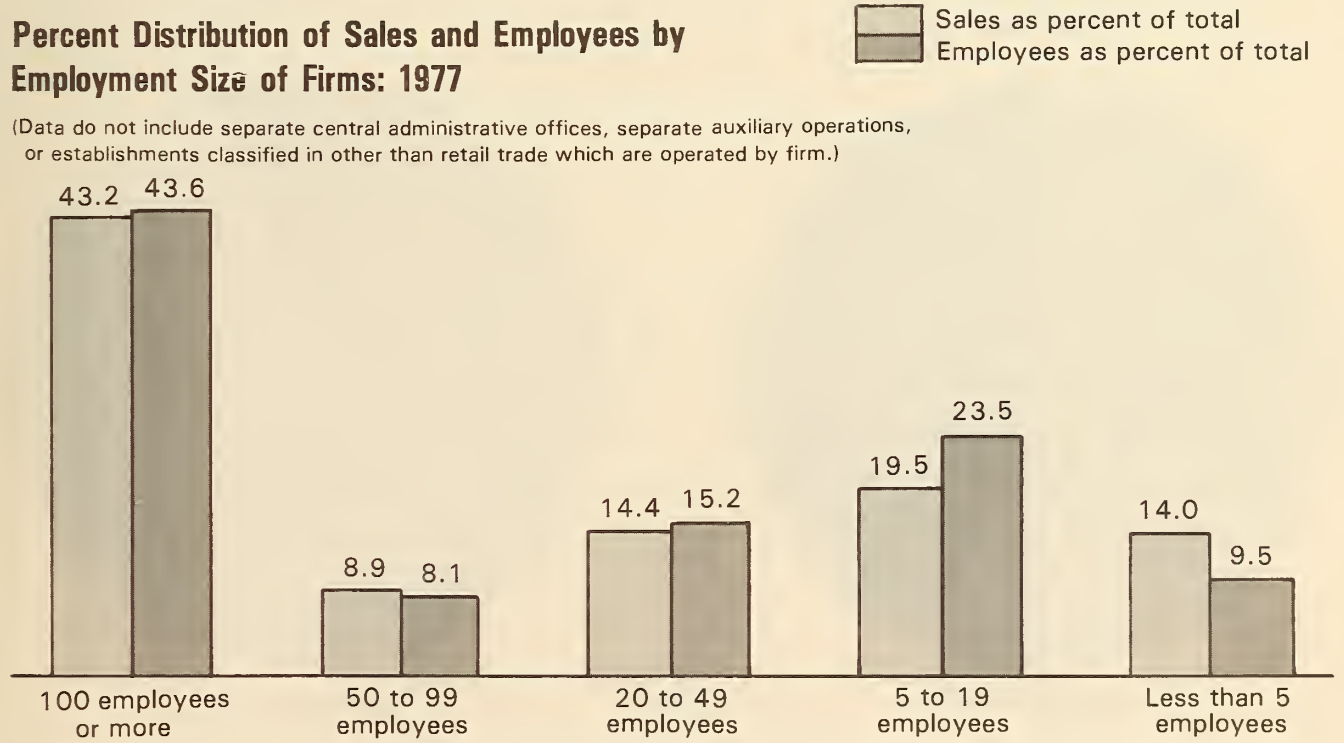

Note: A firm's sales size clasification is based on total sales of all retail establishments operated by owning or controlling firm in kind-of-business classification, group, or total for which data are presented. For detailed explanation, see appendix A.

CHART 5.

Percent Distribution of Sales and Employees by Employment Size of Firms: 1977

(Data do not include separate central administrative offices, separate auxiliary operations, or establishments classified in other than retail trade which are operated by firm.)

Note: A firm's employment size classification is based on total March 12, 1977 employment of all retail establishments operated by owning or controlling firm in kind-of-business classification, group, or total for which data are presented. For detailed explanation, see appendix A.

CHART 6.

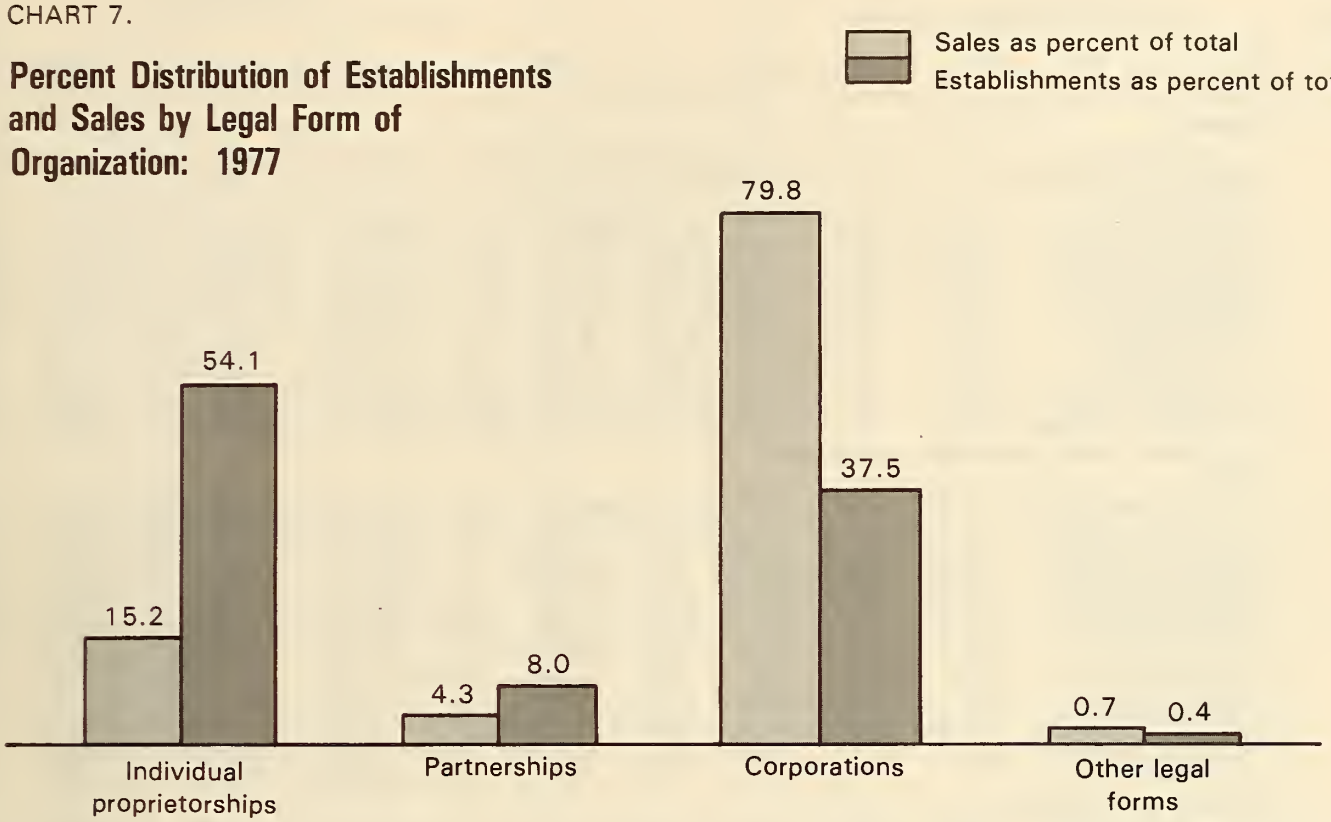

Concentration of Sales by 50 Largest Firms for Selected Kinds of Business: 1977

Note: A firm's sales size clasification is based on total sales of all retail establishments operated by owning or controlling firm in kind-of-business classification, group, or total for which data are presented. For detailed explanation, see appendix A.

CHART 7.

Percent Distribution of Establishments and Sales by Legal Form of Organization: 1977

[1]Excludes nonemployer direct sellers; see appendix A for more information.
[2]Based on number of paid employees for week including March 12.
[3]Number in parentheses represents establishments that operated during part of 1977 but were not in business at end of year. Number is not included in totals.
[4]Includes sales from catalog order desks.
[5]Only establishments with payroll; establishments with no payroll are included at next higher kind-of-business level.

Note: Data do not include separate central administrative offices, separate auxiliary operations, or establishments classified as other than retail trade that are operated by the firm.
[1]Excludes nonemployer direct sellers; see appendix A for more information.
[2]Number in parentheses represents firms that operated during part of 1977 but no establishment of the firm was in business at end of year. Number is not included in totals.
[3]Includes sales from catalog order desks.
[4]Only establishments with payroll; establishments with no payroll are included at next higher kind-of-business level.

Standard Notes: V Withheld due to insufficient response.
Coverage symbols: A = 90 percent or more. B = 80 to 89 percent. C = 70 to 79 percent. D = 60 to 69 percent. E = Less than 60 percent.

[1]Includes only gasoline pumps of establishments in business December 31, 1977.
[2]For gasoline and other automotive pumps, coverage was computed after excluding sales of establishments not in business December 31, 1977.
[3]Coverage is between 50 and 59 percent.

Coverage symbols: A = 90 percent or more. B = 80 to 89 percent. C = 70 to 79 percent. D = 60 to 69 percent. E = Less than 60 percent.

[1]Includes only the seating facilities of establishments in business December 31, 1977.

[2]Coverage was computed after excluding sales of establishments not in business December 31, 1977.

Table 12. Average Cost Per Meal—States: 1977

(Data are shown only for establishments with payroll)

State and kind of business	Establishments (number)	Sales ($1,000)	Establishments with an average cost per meal of: Under $2.00 Number	Under $2.00 Sales ($1,000)	$2.00 to $4.99 Number	$2.00 to $4.99 Sales ($1,000)	$5.00 to $9.99 Number	$5.00 to $9.99 Sales ($1,000)	$10.00 or more Number	$10.00 or more Sales ($1,000)	Sales of establishments responding to the average cost per meal inquiry as percent of total sales

Standard Notes: - Represents zero. D Withheld to avoid disclosure. V Withheld due to insufficient response. X Not applicable.
Coverage symbols: A = 90 percent or more. B = 80 to 89 percent. C = 70 to 79 percent. D = 60 to 69 percent. E = Less than 60 percent.

[1]Percent distribution of sales to builders and contractors was reported separately only by establishments in SIC codes 521, 523, 525, and 526. Sales to builders and contractors by other kinds of business were reported as part of the "To retailers; wholesalers; etc." category.
[2]Includes sales from catalog order desks.
[3]Coverage is between 50 and 59 percent.

Table 32. Kind of Business of Main Store — United States: 1977

For meaning of abbreviations and symbols, see introductory text. Data include only leased departments (concessions) reported by main stores with payroll; however, a measure of nonreporters is not available. Retail businesses reporting were asked, "Were any departments or concessions, not owned by this firm, operated within this establishment during 1977?" They were further instructed to answer "Yes" to this question: "(1) if any department operated by another firm is normally considered by customers to be part of this establishment or if this establishment bills customers for each of such departments or (2) any department is operated by a subsidiary firm or the parent firm".

Kind of business	Leased department		Main store

Table 32. Kind of Business of Main Store — United States: 1977 – Con.

(For meaning of abbreviations and symbols, see introductory text. Data include only leased departments (concessions) reported by main stores with payroll; however, a measure of nonreporters is not available. Retail businesses reporting were asked, "Were any departments or concessions, not owned by this firm, operated within this establishment during 1977?" They were further instructed to answer "Yes" to this question: "(1) if any department operated by another firm is normally considered by customers to be part of this establishment or if this establishment bills customers for each of such departments or (2) any department is operated by a subsidiary firm or the parent firm")

Coverage symbols: A = 90 percent or more. B = 80 to 89 percent. C = 70 to 79 percent. D = 60 to 69 percent. E = Less than 60 percent.

[1]For each establishment, a measure of March 12 employment was obtained from a census report, a payroll tax return, or from imputation. March 12 employment was not, therefore, subject to sampling.

[2]Only payrolls of establishments in business during the particular week were used to project employment for that week.

APPENDIX A. General Explanation

CENSUS COVERAGE AND METHODOLOGY

Structure and method of enumeration—Firms in the 1977 Census of Retail Trade were divided into the nonmail universe and mail universe. The coverage and the method of obtaining census information from each follow:

1. The nonmail universe consists of firms which were not required to file a regular census return and includes:

   a. All nonemployers, i.e., all firms with no paid employees during 1977. Sales information for them was obtained from 1977 Federal income tax records. Although consisting of many firms, nonemployers account for less than 5 percent of total retail sales.

      The census included only those retail nonemployer firms which reported a sales volume of $2,500 or more during 1977 plus firms in operation for less than the full year that reported sales which, if projected to an annual basis, would have reached a total of $2,500 or more. This treatment is the same as in the 1972 census.

   b. Selected small employers, i.e., all business firms with paid employees as shown in the active records of the Internal Revenue Service (IRS) which were subject to payment of Federal Insurance Contribution Act (FICA) taxes. "Small employers" are all those single-establishment firms with payroll below a specified cutoff. Although the cutoff varied by kind of business, small employers generally included firms with one to three employees and represented about 10 percent of total retail sales.

      Data on sales, payroll, and employment for employer firms below the cutoff were obtained from the records of the IRS and the Social Security Administration (SSA), except for a 10-percent sample which was included in the mail universe.

2. The mail universe consists of firms for which information was obtained basically by means of a mail canvass and includes:

   a. Large employers, i.e., all employer firms above the payroll size cutoff established to separate large from small employers. Within this category, a report of company organization is conducted periodically to identify firms which operated establishments at more than one location and to obtain information on payroll and mid-March employment at each location. The 1976 Report of Company Organization was used as a coverage check in the census. In the census mailing package, firms were sent a form to use in updating the list of establishments with those opened since 1976.

   b. The 10-percent sample of small employers referred to in section 1b above.

Method of classifying kinds of business—The retail trade classifications for all establishments were based on the Standard Industrial Classification (SIC) Manual.[1] However, the method of assigning these classifications, and the level of detail at which establishments were classified, differed between the nonmail and mail universes as follows:

1. The nonmail universe.

   a. All nonemployers were classified on the basis of information supplied on the Federal income tax returns. They were coded in less detail than employer firms; therefore, the combined data for all establishments (nonemployer firms plus establishments of employer firms) are presented in less kind-of-business detail than are the data for employer establishments alone.

   b. Selected small employers were classified on the basis of the most current census kind-of-business classification available from one of the Bureau's current sample surveys or the 1972 census. Otherwise, the SSA classification was used or the IRS classification based on the firm's description of its principal business activity as entered on its IRS business tax return.

      If the Census, SSA, and IRS classifications proved inadequate (none corresponded to a 1977 census classification in the detail required for employers), the firm was sent a brief inquiry requesting information necessary to assign a 1977 census kind-of-business code.

2. The mail universe was classified on the basis of answers to questions on sales by merchandise lines and other special inquiries.

COMPARABILITY OF 1972 AND 1977 CENSUSES

The 1972 and 1977 Censuses of Retail Trade were conducted under similar conditions and procedures. However, strict comparability of the data for the two censuses is limited by the following factors:

Geographic areas—The boundaries of a number of areas for which data are shown in the 1977 census are not the same as in the 1972 census because of annexations, other boundary changes, and redefinitions of SMSA's since 1972. In addition, not all areas which qualified for presentation of separate data in one of the census years qualified or existed in both census years (see Geographic Areas Covered in the Introduction).

Classifications

1. In 1977, IRS assigned a more detailed classification code to the business tax returns than they did in 1972. As a result, data are shown for all establishments for certain kinds of business that could not be shown in 1972. The kinds of business involved are:

   Lumber and other building materials dealers
   Paint, glass, and wallpaper stores
   Dairy products stores
   Miscellaneous food stores
   Boat dealers
   Recreational and utility trailer dealers
   Motorcycle dealers
   Automotive dealers, n.e.c.
   Children's and infants' wear stores
   Miscellaneous apparel and accessory stores
   Floor covering stores
   Drapery, curtain, and upholstery stores
   Miscellaneous home furnishings stores
   Radio and television stores
   Music stores
   Fuel oil dealers
   Liquefied petroleum gas (bottled gas) dealers
   Fuel and ice dealers, n.e.c.
   News dealers and newsstands
   Miscellaneous retail stores

2. The definition of specialty sporting goods stores in the 1972 census differs from that in the 1977 census. In 1972, specialty sporting goods stores were defined as establishments specializing in a particular line of sporting goods; in 1977, the definition was changed to an establishment specializing in a maximum of four lines of sporting goods. As a result, data for both specialty sporting goods stores and general sporting goods stores are not comparable between the two censuses.

3. In 1977, the calculation to determine the proper kind-of-business classification based on the dominant merchandise line (or the dominant homogeneous group of merchandise lines) was done after excluding all nonmerchandise sales from total sales; in 1972, the calculation was done using total sales, including nonmerchandise sales. As a result, some establishments were assigned a different kind-of-business classification in 1977 than they would have been assigned in 1972. The change was insignificant in most kinds of business but did result in a number of "Other auto and home supply stores" being reclassified as "Tire, battery, and accessory dealers" if a large part of their receipts came from a service department.

Sales—The 1972 sales statistics included two items omitted from the 1977 sales statistics:

1. Sales (or other) taxes collected from customers and forwarded to taxing authorities.
2. Carrying charges or other charges for credit.

Studies have shown that these items were substantially underreported in the 1972 census. Sales taxes and credit charges reported in the 1972 census have been estimated at about $10 billion for the United States as a whole.

Legal form of organization—In the 1972 census, the legal form of organization was based on data reported directly in the censuses only for establishments of large multiestablishment companies—those with a total company employment of 250 persons or more. (These large firms included information on legal form of organization in their company summary reports.) The legal form of organization of all other establishments was generally decided by the type of IRS business income tax return form they filed; e.g., businesses filing a partnership Federal tax return (form 1065) were assumed to be partnerships.

In 1977, the legal form of organization was determined for establishments in the mail universe on the basis of the response to the legal form of organization inquiry on the census forms. The legal form of organization of nonmail establishments was generally decided by the type of IRS business income tax return form filed.

The "Establishment and Firm Size" section of this volume presents data by the following legal forms of organization:

1. Individual proprietorships.
2. Partnerships.
3. Corporations (including non-tax-exempt cooperatives).
4. Other legal forms.

EXPLANATION OF TERMS

Establishments—An establishment is a single physical location at which business is conducted. It is not necessarily identical with a company or enterprise, which may consist of one or more establishments. The count of establishments in this publication represents the number in business at the end of the year.

For the most part, census of retail trade figures represent a summary of reports for individual establishments rather than companies. When a census report was received from a large employer (see 2.a. under "Census Coverage and Methodology") indicating that business was conducted at more than one location, each such location was treated as a separate establishment. Conversely, when a company's Federal income tax data were used instead of a Census report, or when a company included in the 10-percent sample of small employers (see 2.b. under "Census Coverage and Methodology") reported operations at more than one location, only one establishment was tallied in the publications. Consequently, the number of establishments published in the 1977 Census of Retail Trade is understated.

An attempt was made to measure a part of this understatement by analyzing the 10-percent sample of small employers. There were 38,783 such retail companies in business at the end of 1977. Of this number, 29,373 companies responded to the number of locations inquiry and reported operations at 29,726 locations. By weighting these variables by a factor of 10 and assuming that companies in the sample that did not

return their census report would respond as those that did report, this sample representing 387,830 companies would have operated a total of 392,490 establishments.

When two or more activities were carried on at a single location under a single ownership, all activities generally were grouped together as a single establishment, and the entire establishment was classified on the basis of its major activity and all data for it were included in that classification. However, when distinct and separate economic activities (for which different industry classification codes were appropriate) were conducted under the same ownership at a single location, and when conditions prescribed by the SIC manual for recognizing the existence of more than one establishment were met, separate establishment reports for each of the different activities were obtained in the census.

In the case of leased departments (separately owned businesses operated as departments or concessions of retail business under another ownership, such as a separately owned shoe department in a department store), only a single establishment combining leased departments with the main retail establishment in which they are located is recognized for census purposes. However, when information is obtained from IRS and SSA sources rather than a census report, it is generally not possible to differentiate between leased departments and separate establishments. Leased retail departments located in other than retail establishments (e.g., a gift shop located in a hotel) are considered separate retail establishments.

Sales—Sales include merchandise sold for cash or credit at retail and wholesale by establishments primarily engaged in retail trade; amounts received from customers for layaway purchases; receipts from rental or leasing of vehicles, equipment, instruments, tools, etc.; receipts for delivery, installation, maintenance, repair, alteration, storage, and other services; and gasoline, liquor, tobacco, and other excise taxes which are paid by the manufacturer or wholesaler and passed on to the retailer.

Sales are net after deductions for refunds and allowances for merchandise returned by customers. Trade-in allowances are not deducted from total sales. Total sales do not include carrying or other credit charges; sales (or other) taxes collected from customers and forwarded to taxing authorities; commissions from such sources as investments, rental or sale of real estate, etc.

Sales in this report do not include retail sales made by manufacturers, wholesalers, service establishments, or other businesses whose primary activity is other than retail trade. They do include receipts other than from the sale of merchandise at retail (e.g., service receipts, sales to industrial users, and sales to other retailers) by establishments primarily engaged in retail trade.

Although the count of establishments in this report represents the number in business at the end of the year, the sales figures include sales of all establishments in business at any time during the year.

Payroll entire year—Payroll includes all forms of compensation, such as salaries, wages, commissions, bonuses, vacation allowances, sick leave pay, and the value of payments in kind (e.g., free meals and lodgings), paid during the year to all employees. Tips and gratuities received by employees from patrons and reported to employers are included. For corporations, it includes amounts paid to officers and executives; for unicorporated businesses, it does not include profit or other compensation of proprietors or partners. Payroll is reported before deductions for social security, income tax, insurance, union dues, etc. This definition of payroll is the same as that used by the Internal Revenue Service for form 941.

Payroll first quarter—This item consists of payroll, as defined above, paid to persons employed at any time during the quarter January to March 1977.

Paid employees for week including March 12—Paid employees consist of the full-time and part-time employees, including salaried officers and executives of corporations, who were on the payroll in the pay period including March 12, 1977. Included are employees on paid sick leave, paid holidays, and paid vacations; not included are proprietors and partners of unincorporated businesses. The definition of paid employees is the same as that used on IRS form 941.

Central administrative offices and auxiliaries—Each company included in this census was asked to identify and report separately as "central administrative offices" or "auxiliaries" those locations whose primary functions were to manage, administer, service, or support the activities of the other establishments of the company. Data for such central administrative offices and auxiliaries which primarily service retail establishments are presented as part of the 1977 Enterprise Statistics series of reports.

ESTABLISHMENT AND FIRM SIZE CHAPTER

This chapter is divided into three categories: Size of establishment, size of firm, and legal form of organization.

Size of establishment—Only establishments which operated the entire year have been classified into the various size groupings used in the establishment size tables (tables 1 and 2). An establishment is classified as "operated entire year" if it operated 10 months or more during the year and was in operation at the end of the year. Establishments which were temporarily or seasonally inactive at the end of 1977 were also considered as "operated entire year" if they were in operation for 10 months or more during the year. This differs from the treatment in the 1972 census where the "operated entire year" or "not operated entire year" categories for temporarily or seasonally inactive establishments were based on the length of time the establishments were owned, rather than the length of time they were actively operated.

Data for establishments which reported that they were in operation fewer than 10 months, while not included in the size groupings, are included in the totals for the kind of business and are separately summarized as "not operated entire year."

Sales size—Data in table 1 are classified into 11 sales size groups depending on the value of sales and other receipts reported for the year 1977. As the class intervals in this table indicate, establishments were classified by sales size groups after the reported sales and receipts figures had been rounded to the nearest thousand dollars.

Employment size—Data in table 2 are classified into 12 employment size groups depending on the number of employees on the payroll during the pay period including March 12, 1977. Proprietors and unpaid family workers were not regarded as employees in determining the employment size of an establishment.

Size of firm—A firm may be either a single establishment (single unit) firm or a multiestablishment (multiunit) firm. Firm size groups are based on aggregate data for all establishments operated by the same firm in the kind-of-business classification, group, or total for which data are presented. For example, a firm operates three retail establishments: A department store (SIC 531), a variety store (SIC 533), and a grocery store (SIC 541). At the most detailed level of classification, each of the establishments is a single unit operated by a multiestablishment firm. At the general merchandise group level (SIC 53), it is a 2-establishment multiunit. At the retail trade total level, it is a 3-establishment multiunit. Data are presented based on sales size of firms, employment size of firms, and concentration by major firms, as well as for single units and multiunits (by number of establishments operated).

Single units and multiunits—Data in table 3 are classified into 11 firm size groups based on the number of establishments operated on December 31, 1977. A single unit is a firm with only one establishment engaged in economic activities. A multiunit is a firm with two establishments or more engaged in economic activities. A multiestablishment firm may, however, operate only one establishment classified in retail trade.

Sales size—Data in table 4 are classified into 10 sales size groups depending on the value of sales and other receipts reported for the year 1977. As the class intervals in this table indicate, firms were classified by sales size groups after the reported sales and receipts figures had been rounded to the nearest $1,000 for individual establishments.

Employment size—Data in table 5 are classified into 11 employment size groups depending on the number of employees on the payroll during the pay period including March 12, 1977. Proprietors and unpaid family workers were not regarded as employees in determining the employment size of the firm.

Concentration of largest firms—Data in table 6 are presented separately for the 4, 8, 20, and 50 largest firms based on total sales.

Legal form of organization—Data in table 7 represent a summary for individual establishments rather than firms, as in tables 1 and 2. For the method of assigning legal form, see Comparability of 1972 and 1977 Censuses, Legal form of organization, in appendix A.

MISCELLANEOUS SUBJECTS CHAPTER

Census reports included two distinctly different types of inquiries, "basic" and "special." Basic or general inquiries, which included location, kind of business, sales, payroll, and number of employees, were available from a combination of sources for all establishments. Special inquiries, tailored to the particular kinds of business covered in this chapter, were available only from establishments in the "mail universe" which completed the appropriate inquiries on the questionnaires.

Data for special inquiries in this chapter have been expanded in most tables to account for establishments which did not respond to the particular inquiry for which data are presented. Unless otherwise noted in the specific table, data for these special inquiries have been expanded in direct relationship to total sales; i.e., it is assumed that the characteristics of establishments not responding to the particular special inquiry are the same as establishments with equal sales in the same category (publication table line) which did respond to the inquiry.

All tables in which data are expanded to account for nonrespondents include a "coverage" indicator for each publication category which shows the sales of establishments responding to the special inquiry as a percent of total sales of all establishments for which data are shown. Unless otherwise noted in the specific table, data are shown in this report only for categories for which the "coverage," or level of response, was 60 percent or higher, i.e., for which total sales of establishments responding to the inquiry equalled or exceeded 60 percent of total sales of all establishments in the category.

MERCHANDISE LINE SALES CHAPTER

Limitations in reporting sales by merchandise lines—Even with such a limited breakdown of 31 major lines, it was found that there was a tendency on the part of respondents to fail to identify what were minor lines for a particular business and to include the sales of such minor lines with major ones. This deficiency has the effect of understating the number of outlets for individual merchandise lines and to a lesser extent it affects the measurement of the volume of sales of individual lines.

It should be noted that the merchandise line categories by which individual retailers group their sales are not uniform and, therefore, will not always correspond to categories established in a reporting system designed for general use. In addition, because many retailers had little if any recorded information of sales by line of merchandise, it is necessary to recognize that a substantial amount of estimating is involved in the reporting of merchandise lines. Futhermore, there is, of course, no assurance that the pattern for the stores reporting by merchandise lines is representative of those which did not report. However, it was concluded that the effect of individual differences and of the use of approximations would be minimized in summary tabulations by the tendency for individual deviations to be offsetting. On this basis, figures for sales should constitute useful approximations to serve many important current require-

ments and should be helpful in measuring important changes occurring over fairly long intervals, such as between successive censuses.

A related problem for a number of large retail firms was the absence of merchandise line records on an individual establishment basis. Some firms had information available only for the group of stores within a warehouse district or some other grouping used by the firm. In such cases it was necessary for the firm to estimate sales for individual stores by using the pattern of sales shown by the entire group of stores.

Differences Between 1972 and 1977 Merchandise Lines—The 1972 census presented data for 27 broad merchandise lines. For 1977, these merchandise lines have been restructured into 31 categories. The following revisions were made to present more detailed merchandise line data:

1. "Drugs," previously part of "Drugs and other health aids," has been made a separate category. "Other health aids" is now included in the "Health and beauty aids" category.
2. "Toiletries" is now part of the "Health and beauty aids" category.
3. "Small electric appliances," previously part of "Kitchenware and home furnishings," has been made a separate category.
4. The "Radios, TV's and musical instruments" category has been divided into the "Televisions" and "Audio, musical equipment and supplies" categories.
5. The "Jewelry and optical goods" category has been divided into the "Jewelry" and "Optical goods" categories.
6. The "Sporting and recreational equipment" category has been divided into the "Sporting goods" and "Recreational vehicles" categories.

Expansion—The merchandise line data reflect the sales experience of retail establishments with payroll only. Moreover, reporting was incomplete or inadequate for establishments representing about 19 percent of the total dollar volume of these establishments. However, merchandise line data have been expanded to the sales of all retail establishments with payroll on the premise that the experience of those establishments not reporting merchandise line data paralleled those establishments in the same kinds of business which reported this information. Due to the method by which merchandise line sales are expanded, some inconsistencies between estimates for various lines may result. However, each estimate should be regarded as valid in and of itself.

Differences between 1972 and 1977 expansion methodology—To project merchandise line data for nonreporters in 1972, an expansion factor was developed at the United States level for each kind of business and was applied to reported data at each lower geographic level. For 1977, merchandise line data for nonreporters was projected at the lowest level of geography (SMSA or balance of each State not located in an SMSA) for the most detailed kinds of business presented in the report series, based on reporting experience in that area. If there were no reported merchandise line data, expansion factors developed at the United States level were used to project merchandise line data as was done in 1972. These detailed kind-of-business estimates were then summed to form higher level kind-of-business estimates. Finally, all SMSA (and balance of State not located in an SMSA) areas were summed to create State and United States estimates.

Coverage—Table 3 presents coverage ranges for each kind of business shown. Coverage ranges for each kind of business indicate the degree to which sales were acceptably reported by broad merchandise lines. Coverage was determined by dividing total sales of establishments reporting acceptable data by broad lines (whether or not additional detail lines were reported) by total sales of all establishments classified in that particular kind of business.

In addition, coverage ranges are presented for selected broad merchandise lines where additional detail merchandise line information within the broad line was requested indicating the degree to which detail lines within that broad line were acceptably reported. The table presents each broad line under which additional detail line reporting was requested and shows the degree to which businesses which reported the specified broad merchandise line gave the additional detail breakdown. The coverage range was computed by dividing total sales of establishments reporting detail lines within the particular broad line by the estimated sales of establishments reporting that broad line within the particular kind of business. Coverage ranges used for both kinds of business and broad lines are:

A=90 percent or more reporting.
B=80 to 89 percent reporting.
C=70 to 79 percent reporting.
D=60 to 69 percent reporting.
E=Less than 60 percent reporting.

Except when precluded by the census disclosure rules (see Introduction), data have been shown for individual kinds of business when the dollar volume of reporting coverage was sufficient to account for 60 percent or more of sales (ranges A through D) on a weighted basis after weighting of merchandise line sales of the sample of "small employers" described in the Census Coverage and Methodology section above.

As noted above, the fact that an establishment reported its sales by broad merchandise line does not always mean that all lines handled by the establishment reported separately. In a few instances this limitation is particularly apparent. For example, as a result of the trade custom of grouping paper products and soaps with dry groceries, a number of food stores apparently included amounts for such products with line 100 instead of in lines 815 and 816.

Description of the tables—Table 1 provides data for each kind of business and gives for each merchandise line: The number of establishments handling the line and their sales of the line; the percentage of total sales of the specific kind of business accounted for by each of the lines carried; and in addition, for each line, the degree of specialization in that line. Specialization is derived by computing the percentage which sales of that line is of total sales of establishments that handled that particular line.

Information on detailed (as contrasted with broad) merchandise lines appears only in connection with the specific kind of business to which the lines apply. Data relating to the detailed lines are indented below the applicable broad line in the tabulations.

In 1977, data for merchandise lines which represent less than 0.05 percent of sales in a specific kind of business, and data for merchandise lines which were not shown separately to avoid disclosure have been combined into a "Miscellaneous merchandise" line within the applicable merchandise line grouping. Because of rounding procedures used, detail may not add to the totals in the "All establishments" percentage column.

Table 2 provides summary data by broad merchandise line, including counts of establishments handling the line and total sales of the line. Also provided within each broad merchandise line are counts of establishments carrying the line and the amount and percent of the line sold by various kinds of retail businesses. Data for kinds of business accounting for less than 0.05 percent of the specific broad line sales and data for kinds of business which were not shown separately to avoid disclosure are included on the line, "All other retailers."

Table 3 presents information on sales coverage of establishments reporting merchandise lines that can be used as a guideline to evaluate the validity of the merchandise line in tabulations.

A table which provides an estimate of the relative sampling variability (coefficient of variation) for each merchandise line, by kind of business, at the United States level is available upon request from the Chief, Business Division, Bureau of the Census, Washington, D.C. 20233.

KIND-OF-BUSINESS CLASSIFICATIONS

Retail trade, major groups 52 through 59 in the 1972 SIC manual, includes establishments engaged in selling merchandise for personal or household consumption and in rendering services incidental to the sale of the goods. Exceptions are necessitated by trade practices. For example, lumber yards and paint, glass, and wallpaper stores are included in retail trade if they sell to the general public, even if a higher proportion of their sales is made to contractors. Establishments engaged in selling products to the general public from displayed merchandise, such as typewriters, stationery, or gasoline, are classified in retail trade even though such products may not be used for personal or household consumption. However, establishments that sell exclusively to business establishments, institutional and industrial users, or contractors are classified in wholesale trade.

Other important characteristics of retail trade establishments are that they are usually fixed places of business; they are engaged in activities to attract the general public to buy; they buy or receive as well as sell merchandise; they may process their products, although processing is incidental or subordinate to selling; and they are considered as retail in the trade. Not all of these characteristics need be present and some are modified by trade practice.

Establishments covered by the census were assigned kind-of-business classifications in accordance with the industry classifications defined in the 1972 SIC manual. When a more detailed classification was needed than that defined in the SIC manual, more kinds of business were identified within an SIC. In general, retail establishments were classified according to the principal lines of commodities sold (groceries, hardware, etc.), or the usual trade designation (drug store, cigar store, etc.).

Kind-of-business classifications are not interchangeable with commodity classifications; most businesses sell several kinds of commodities. The kind-of-business code generally reflects either the individual commodity or the commodity group which is the primary source of the establishment's receipts, or some mixture of commodities which characterizes the establishment's business. Thus, the classification of establishments by kind of business generally does not make it possible to determine either the number of establishments handling a particular commodity or the sales of that commodity. For example, the "food stores" classification excludes stores selling food if the sale of food is not the primary source of receipts. Many stores are classified as "food stores" even though some of their receipts may be derived from the sale of nonfood products. This report gives some indication of the extent to which various broad groups of commodities, or "merchandise lines," are characteristic of different kinds of business.

Building Materials, Hardware, Garden Supply, and Mobile Home Dealers (SIC Major Group 52)

This major group includes retail establishments primarily engaged in selling lumber and other building materials; paint, glass, and wallpaper; hardware; nursery stock; lawn and garden supplies; and mobile homes. It includes lumber and other building materials dealers and paint, glass, and wallpaper stores selling to the general public, even if sales to contractors account for a larger proportion of total sales; these establishments are known as "retail" in the trade. Establishments primarily selling these products but not selling to the general public are classified in wholesale trade.

Lumber and other building materials dealers (SIC 521)—Establishments engaged in selling primarily lumber or lumber and a general line of building materials to the general public. While these establishments may also sell to contractors, they are known as "retail" in the trade. The lumber they sell may include rough and dressed lumber, flooring, molding, doors, sashes, frames, and other millwork. The building materials may include roofing, siding, shingles, wallboard, paint, brick, tile, cement, sand, gravel, and other building materials and supplies. Hardware is often an important line of retail lumber and building materials dealers. Establishments not selling to the general public or known in the trade as "wholesale" are classified in SIC 503.

Paint, glass, and wallpaper stores (SIC 523)—Establishments engaged in selling primarily paint, glass, and wallpaper, or any combination of these lines, to the general public. While these establishments may also sell to contractors, they are known as "retail" in the trade. Establishments not selling to the general public or that are known in the trade as "wholesale" are classified in wholesale trade.

Hardware stores (SIC 525)—Establishments primarily selling a number of basic hardware lines such as tools, builders' hardware, paint and glass, housewares and household appliances, cutlery, and roofing materials, no one of which accounts for 50 percent or more of the sales of the establishments.

Retail nurseries, lawn and garden supply stores (SIC 526)—Establishments primarily engaged in selling trees, shrubs, other plants, seeds, bulbs, mulches, soil conditioners, fertilizers, pesticides, garden tools, and other garden supplies to the general public. These establishments primarily sell products purchased from others, but may sell some plants which they grow themselves. Establishments primarily engaged in the growing of plants are classified in SIC major group 01.

Mobile home dealers (SIC 527)—Establishments primarily engaged in the retail sales of new and used mobile homes, including parts and accessories. Establishments primarily selling travel trailers and campers are classified in SIC 5561.

General Merchandise Group Stores (SIC Major Group 53)

This major group includes retail stores which sell a number of lines of merchandise, such as dry goods, apparel and accessories, furniture and home furnishings, small wares, hardware, and food. The stores included in this group are known as department stores, variety stores, general merchandise stores, general stores, etc. Establishments primarily engaged in selling used general merchandise are classified in SIC 593, and those selling general merchandise by mail, vending machine, or direct selling are classified in SIC 596.

Department stores (SIC 531)—Establishments normally employing 25 people or more, having sales of apparel and softgoods combined amounting to 20 percent or more of total sales, and selling each of the following lines of merchandise:

1. Furniture, home furnishings, appliances, and radio and TV sets.
2. A general line of apparel for the family.
3. Household linens and dry goods.

To qualify as a department store, sales of each of the lines listed above must be less than 80 percent of total sales. An establishment with total sales of $10 million or more is classified as a department store even if sales of one of the merchandise lines listed above exceed the maximum percent of total sales, provided that the combined sales of the other two groups are $1 million or more. Relatively few stores are included in this classification as a result of this special rule and most of those which are would otherwise have been classified in the apparel group (SIC major group 56).

Variety stores (SIC 533)—Establishments primarily engaged in the retail sale of a variety of merchandise in the low and popular price ranges. Sales usually are made on a cash-and-carry basis with the open selling method of display and customer selection of merchandise. These stores generally do not carry a complete line of merchandise, are not departmentalized, do not carry their own charge service, and do not deliver merchandise.

Miscellaneous general merchandise stores (SIC 539)—Establishments primarily engaged in the retail sale of a general line of apparel, dry goods, hardware, homewares or home furnishings, groceries, and other lines in limited amounts. Stores selling commodities covered in the definition for department stores but normally having less than 25 employees, and stores usually known as country general stores are included here. Also included are most catalog showrooms and establishments whose sales of apparel or furniture and home furnishings exceed half of their total sales, providing that sales of the smaller of the two lines in combination with dry goods and household linens account for 20 percent or more of total sales.

Food Stores (SIC Major Group 54)

This major group includes retail stores primarily engaged in selling food for home preparation and consumption. Establishments primarily engaged in selling prepared foods and drinks for consumption on the premises are classified in major group 58, and stores primarily engaged in selling packaged beers and liquors are classified in SIC 5921.

Grocery stores (SIC 541)—Establishments primarily selling (1) a wide variety of canned or frozen foods such as vegetables, fruits, and soups; (2) packaged or bulk dry groceries, such as tea, coffee, cocoa, dried fruits, spices, sugar, flour, and crackers; and (3) other processed foods and nonedible grocery items. These establishments often also sell smoked and prepared meats, fresh fish and poultry, fresh vegetables and fruits, and fresh or frozen meats. Establishments commonly known as supermarkets, food stores, and delicatessens are included if receipts from sales of groceries and food items for off-premise preparation and consumption are 50 percent or more of total sales.

Freezer and locker meat provisioners (SIC 5422)—Establishments primarily engaged in the retail sale of meat in bulk for freezer storage. Also included are establishments primarily providing home freezer plans. Food locker plants primarily engaged in renting locker space for the storage of food products for individual households are classified in SIC 4222. (Separate data are shown only at the national level in the Geographic Area Series report RC77-A-52, U.S. Summary.)

Meat markets (SIC 5423 pt.)—Establishments primarily selling fresh, frozen, or cured meats. Frequently these establishments also sell poultry, fish, dairy products, eggs, and some groceries. Establishments included in this category reported that meat, fish, and poultry sales accounted for 80 percent or more of total sales and that fresh and/or frozen meat accounted for 50 percent or more of their total receipts. (Separate data are shown only at the national level in the Geographic Area Series report RC77-A-52, U.S. Summary.)

Fish (seafood) markets (SIC 5423 pt.)—Establishments pri-

marily selling fresh or frozen fish, oysters and other shellfish, and other seafoods. They frequently also sell other food items commonly used in preparing seafood or consumed with seafoods. Establishments included in this category reported that sales of fish and other seafood accounted for 50 percent or more of total receipts. (Separate data are shown only at the national level in the Geographic Area Series report RC77-A-52, U.S. Summary.)

Fruit stores and vegetable markets (SIC 543)—Establishments primarily selling fresh fruits and fresh vegetables. They frequently also carry a limited line of grocery items. Roadside stands of farmers selling only their own produce are not included in the census.

Candy, nut, and confectionery stores (SIC 544)—Establishments primarily selling candy, nuts, sweetmeats, and other confections. A soda fountain or lunch counter is frequently operated in these stores.

Dairy products stores (SIC 545)—Establishments primarily engaged in the retail sale of dairy products such as milk, cream, butter, cheese, and related products to over-the-counter customers. Ice cream and frozen custard stands are classified in SIC 5812 and establishments buying ice cream and similar products and selling them from trucks or wagons are classified in SIC 5963. Establishments primarily engaged in processing and distributing milk and cream are classified in SIC 202.

Retail bakeries—baking and selling (SIC 5462)—Establishments primarily engaged in the retail sale of bakery products, such as bread, cakes, and pies, and preparing some or all of the products sold on the premises. Establishments manufacturing bakery products and selling them chiefly through house-to-house routes are classified in SIC 2051. Establishments purchasing bakery products and selling them house to house are classified in SIC 5963.

Retail bakeries—selling only (SIC 5463)—Establishments primarily engaged in the retail sale of bakery products such as bread, cakes, and pies, none of which are produced on the premises.

Miscellaneous food stores (SIC 549)—Establishments primarily engaged in the retail sale of specialized foods not elsewhere classified, such as eggs and poultry, health foods, spices, herbs, coffee, and tea. The poultry stores may sell live poultry, slaughter and clean poultry for their own account and sell dressed fowls, or sell fowls cleaned and dressed by others.

Automotive Dealers and Gasoline Service Stations (SIC Major Group 55)

This major group includes retail dealers selling new and used automobiles, boats, recreational and utility trailers, and motorcycles; dealers selling new automobile parts and accessories; and gasoline service stations selling gasoline and lubricating oils. It includes establishments dealing exclusively in used automobiles, but not establishments dealing exclusively in used parts (SIC 5931). Also included are automobile repair shops maintained by establishments engaged in the sale of new automobiles. Automotive distributors, the greater part of whose sales are to dealers or to institutional or industrial users, are classified in wholesale trade.

Dealers with domestic car franchise only (SIC 551 pt.)—Establishments having only a domestic car franchise and primarily engaged in the sale of new automobiles or new and used automobiles. They usually have a service and parts department.

Dealers with imported car franchise only (SIC 551 pt.)—Establishments having only an imported car franchise and primarily engaged in the sale of new automobiles or new and used automobiles. They usually have a service and parts department.

Dealers with domestic and imported car franchises (SIC 551 pt.)—Establishments with both domestic and imported car franchises and primarily engaged in the sale of new automobiles or new and used automobiles. They usually have a service and parts department.

Motor vehicle dealers, used cars only (SIC 552)—Establishments primarily selling used cars and not holding a franchise for the sale of new passenger cars.

Tire, battery, and accessory dealers (SIC 553 pt.)—Establishments primarily selling new automobile tires, batteries, automobile seat covers, and other automotive parts and accessories. Establishments primarily selling used merchandise are classified as "Used merchandise stores" (SIC 5931).

Other auto and home supply stores (SIC 553 pt.)—Establishments engaged in selling a combination of lines of merchandise including tires, batteries and accessories, household appliances, radios and television sets, sporting and recreational goods, toys, housewares, and hardware, no one of which accounts for over 49 percent of total sales.

Gasoline service stations (SIC 554)—Establishments primarily selling gasoline and automotive lubricants. Usually these establishments also sell tires, batteries, and accessories, and perform minor repair work and services. Establishments called garages but deriving more than half of their receipts from the sale of gasoline and automotive lubricants are included.

Boat dealers (SIC 555)—Establishments primarily engaged in the retail sale of new and used motorboats and other watercraft, including parts, accessories, marine supplies, and outboard motors.

Recreational and utility trailer dealers (SIC 556)—Establishments primarily engaged in the retail sale of new and used recreational trailers, campers (pickup coaches), utility trailers, and other trailers for passenger automobiles, and motor homes, including parts and accessories. Establishments primarily engaged in the retail sale of mobile homes are classified in SIC 5271.

Motorcycle dealers (SIC 557)—Establishments primarily engaged in the retail sale of new and used motorcycles and motor scooters, including parts and accessories.

Automotive dealers, n.e.c. (SIC 559)—Establishments primarily engaged in the retail sale of new and used automotive vehicles, such as snowmobiles, dunebuggies, and gocarts, and new equipment and supplies, not elsewhere classified.

Apparel and Accessory Stores (SIC Major Group 56)

Establishments in this major group are primarily engaged in selling clothing of all kinds and related articles for personal wear and adornment. Not included are establishments which meet the criteria for "Department stores" (SIC 5311) or "Miscellaneous general merchandise stores" (SIC 5399) even though most of their receipts are from the sale of apparel and apparel accessories.

Men's and boys' clothing and furnishings stores (SIC 561)—Establishments primarily selling men's and boys' ready-to-wear clothing and furnishings. Establishments are included in this category if (1) sales of all types of apparel (except as noted in the definition for general merchandise group stores) account for 50 percent or more of total sales and (2) receipts from sales of all men's and boys' apparel are three or more times the receipts from sales of all women's and girls' apparel.

Women's ready-to-wear stores (SIC 562)—Establishments primarily selling women's and girls' ready-to-wear apparel. Establishments are included in this category if (1) sales of all types of apparel (except as noted in the definition for general merchandise group stores) account for 50 percent or more of total sales, (2) sales of all women's and girls' apparel are three or more times the sales of all men's and boys' apparel, and (3) sales of dresses, skirts, slacks, coats, suits, and furs are two or more times greater than the sales of millinery, hosiery, underwear, blouses, handbags, and other apparel and accessories.

Millinery stores (SIC 563 pt.)—Establishments primarily selling women's hats, including those making hats on the premises to custom order. (Separate data are shown only at the national level in the Geographic Area Series report RC77-A-52, U.S. Summary.)

Corset and lingerie stores (SIC 563 pt.)—Establishments primarily selling women's foundation garments, lingerie, negligees, robes, and other intimate wear. Establishments primarily engaged in selling foundation garments made or fitted to custom order also are included. (Separate data are shown only at the national level in the Geographic Area Series report RC77-A-52, U.S. Summary.)

Other women's accessory and specialty stores (SIC 563 pt.)—Establishments primarily selling a specialized line of women's and girls' apparel, such as sportswear, beachwear, blouses, and hosiery. Included in this industry are establishments which meet the definition for women's ready-to-wear stores except that receipts from sales of dresses, skirts, slacks, coats, suits, and furs are not twice as much or more than sales of other women's and girls' apparel. Establishments selling men's and boys' apparel in combination with women's and girls' apparel may be classified as "Family clothing stores" (SIC 5651) under conditions specified in the definition for that kind of business. (Separate data are shown only at the national level in the Geographic Area Series report RC77-A-52, U.S. Summary.)

Children's and infants' wear stores (SIC 564)—Establishments primarily engaged in the retail sale of children's and infants' clothing, furnishings, and accessories. They may specialize in either children's or infants' wear or sell a combination of children's and infants' wear.

Family clothing stores (SIC 565)—Establishments primarily selling clothing, furnishings, and accessories for men, women, and children, without specializing in any one line. Establishments are included in this category if (1) sales of all types of apparel (except as noted in the definition for general merchandise group stores) account for 50 percent or more of their total sales, (2) sales of all women's and girls' apparel items are not more than three times the sales of all men's and boys' apparel items, and (3) sales of men's and boys' apparel items are not more than three times the sales of all women's and girls' apparel items.

Men's shoe stores (SIC 566 pt.)—Establishments primarily selling men's and boys' shoes and other footwear. Establishments selling women's and girls' and/or children's and infants' footwear are included in this classification if sales of men's and boys' footwear are more than three times the combined sales of women's, girls', children's, and infants' footwear.

Women's shoe stores (SIC 566 pt.)—Establishments primarily selling women's and girls' shoes and other footwear. Establishments selling men's and boys' and/or children's and infants' footwear are included in this classification if sales of women's and girls' footwear are more than three times the combined sales of men's, boys', children's, and infants' footwear.

Children's and juveniles' shoe stores (SIC 566 pt.)—Establishments primarily selling children's and infants' shoes and other footwear. Establishments selling men's, boys', and/or women's and girls' footwear are included in this classification if sales of children's and infants' footwear are more than three times the combined sales of men's, boys', women's, and girls' footwear.

Family shoe stores (SIC 566 pt.)—Establishments primarily selling both men's and women's shoes and other footwear; they may or may not sell children's shoes. Frequently, they also sell accessories such as hosiery, gloves, and handbags. Establishments are included in this classification if (1) sales of any one of the three major groupings (men's and boys' footwear, women's and girls' footwear, and children's and infants' footwear) are not more than three times the sales of the other two groups combined and (2) if children's and infants' footwear

are not carried, sales of the larger of the two remaining groups are not more than three times the sales of the smaller group.

Furriers and fur shops (SIC 568)—Retail establishments primarily engaged in selling fur coats and other fur apparel, including fur apparel made in the same establishment to custom order. Establishments primarily engaged in fur repair and are classified in SIC 7219. (Separate data are shown only at the national level in the Geographic Area Series report RC77-A-52, U.S. Summary.)

Miscellaneous apparel and accessory stores (SIC 569)—Establishments primarily engaged in the retail sale of specialized lines of apparel and accessories not elsewhere classified, such as uniforms, bathing suits, raincoats, riding apparel, sports apparel, umbrellas, wigs, and toupees. This industry also includes custom tailors primarily engaged in making and selling men's and women's clothing (except fur apparel, SIC 5681) to individual order.

Furniture, Home Furnishings, and Equipment Stores (SIC Major Group 57)

This major group includes retail stores selling goods used for furnishing the home, such as furniture, floor coverings, draperies, glass and chinaware, domestic stoves, refrigerators, and other household electrical and gas appliances. Establishments selling electrical and gas appliances are included in this group only if the major part of their sales consists of articles for home use. Dealers primarily engaged in selling antique and secondhand furniture are classified in SIC 593. Stores primarily engaged in selling merchandise but also providing an interior decorating service are classified according to the merchandise handled. Interior designers primarily engaged in advising clients on the selection of interior decorations are classified in SIC 7399.

Furniture stores (SIC 5712)—Establishments primarily selling household furniture, beds, mattresses, springs, and other sleep equipment. Also included in this classification are establishments selling household appliances, phonographs, radios, and television sets, and floor coverings provided the receipts from sales of furniture and sleep equipment exceed those from sales of other merchandise.

Floor covering stores (SIC 5713)—Establishments primarily engaged in the retail sale of floor coverings and related products. Establishments sometimes performing installation service are included in this industry. Contractors primarily engaged in installing floor coverings are classified in SIC 1752.

Drapery, curtain, and upholstery stores (SIC 5714)—Establishments primarily selling draperies, curtains, slipcovers, and upholstery materials. Establishments primarily selling custom-made draperies and slipcovers for household use also are included. Establishments primarily engaged in reupholstering or repairing furniture are classified in SIC 7641.

Miscellaneous home furnishings stores (SIC 5719)—Establishments primarily engaged in the retail sale of miscellaneous home furnishings, such as china, glassware, and metalware for kitchen and table use, bedding and linen, brooms, brushes, lamps and shades, mirrors and pictures, venetian blinds, and window shades. Establishments primarily engaged in the retail sale of miscellaneous home furnishings by house-to-house canvass or by party-plan merchandising are classified in SIC 5963.

Household appliance stores (SIC 572)—Establishments primarily engaged in the retail sale of electric and gas refrigerators, stoves, and other household appliances such as electric irons, percolators, hot plates, and vacuum cleaners. Many such stores also sell radios and television sets.

Radio and television stores (SIC 5732)—Establishments primarily engaged in the retail sale and installation of radios, television sets, record players, high fidelity (hi-fi), and sound reproducing equipment. Such establishments also may sell additional lines such as household appliances, musical instruments, or records. Radio and television repair shops are classified in SIC 7622.

Record shops (SIC 5733 pt.)—Establishments primarily selling phonograph records and albums. Related merchandise also frequently is sold in these stores.

Musical instrument stores (SIC 5733 pt.)—Establishments primarily selling musical instruments such as organs, pianos, horns, stringed instruments, and percussion instruments. Other musical supplies also may be sold in these stores.

Eating and Drinking Places (SIC Major Group 58)

This major group includes retail establishments selling prepared food and drinks for consumption on the premises; it also includes lunch counters and refreshment stands selling prepared foods and drinks for immediate consumption. Restaurants, lunch counters, and drinking places operated as a subordinate service facility by other establishments are not included in this industry unless they are operated as leased departments by outside operators. Thus, restaurants and coffee shops operated by hotels are classified in major group 70 and those operated by department stores are classified in major group 53.

Restaurants and lunchrooms (SIC 5812 pt.)—Establishments engaged in serving prepared food and beverages selected by the patron from a full menu. These establishments provide waiter or waitress service and seating facilities for at least 15 patrons. They often serve alcoholic beverages. Establishments in which sales of alcoholic beverages for consumption on the premises exceed sales of prepared food and nonalcoholic beverages are classified as "Drinking places" (SIC 5813).

Social caterers (SIC 5812 pt.)—Establishments primarily engaged in serving prepared food and beverages for weddings, banquets, etc. at a hall or similar place rather than at a fixed business location. Such establishments also may arrange for some entertainment, but entertainment should be a minor part

of the business. (Separate data are shown only at the national level in the Geographic Area Series report RC77-A-52, U.S. Summary.)

Cafeterias (SIC 5812 pt.)—Establishments engaged in serving prepared food and beverages primarily through the use of a cafeteria line where customers make selections from displayed items. Some limited waiter or waitress service may be provided. Table and/or booth seating facilities are usually provided.

Refreshment places (SIC 5812 pt.)—Establishments primarily selling limited lines of refreshments and prepared food. Included in this group are establishments which prepare items such as pizza, chicken, and hamburgers for consumption either on or near the premises or for "take-home" consumption.

Contract feeding (SIC 5812 pt.)—Establishments primarily engaged in providing food service under contract to another company; hospital; or governmental, penal, or educational institution. The facilities and personnel of these establishments may be provided by the contracting company, institution, etc., but the management must always be supplied by the contractor. (Separate data are shown only at the national level in the Geographic Area Series report RC77-A-52, U.S. Summary.)

Ice cream and frozen custard stands (SIC 5812 pt.)—Establishments primarily engaged in selling ice cream, frozen custard, or other frozen ices for consumption either on or near the premises. "Take-home" packages also may be provided for ice cream sold in bulk. (Separate data are shown only at the national level in the Geographic Area Series report RC77-A-52 U.S. Summary.)

Drinking places (alcoholic beverages) (SIC 5813)—Establishments primarily engaged in the retail sale of drinks such as beer, ale, wine, liquor, and other alcoholic beverages for consumption on the premises. The sale of food frequently accounts for a substantial portion of the receipts of these establishments.

Miscellaneous Retail Stores (SIC Major Group 59)

This major group includes retail establishments not elsewhere classified. These establishments fall into the following categories: Drug stores, liquor stores, used merchandise stores, miscellaneous shopping goods stores, nonstore retailers, fuel and ice dealers, florists, cigar stores and stands, news dealers and newsstands, and miscellaneous retail stores not elsewhere classified.

Drug stores (SIC 591 pt.)—Establishments engaged in the retail sale of prescription drugs and patent medicines. They may carry a number of related lines such as cosmetics, toiletries, tobacco, and novelty merchandise and may operate a soda fountain or lunch counter. These stores are classified on the basis of their usual trade designation rather than on a strict interpretation of commodities handled.

Proprietary stores (SIC 591 pt.)—Establishments generally selling the same merchandise as drug stores, except that prescriptions are not filled and sold.

Liquor stores (SIC 592)—Establishments primarily selling packaged alcoholic beverages such as ale, beer, wine, and whiskey for consumption off the premises. Liquor stores operated by States, counties, and municipalities are included.

Used merchandise stores (SIC 593)—This industry includes stores primarily engaged in the retail sale of used merchandise, antiques, and secondhand goods such as clothing and shoes; furniture; books and rare manuscripts; automobile parts, accessories, tires, and batteries; musical instruments; office furniture; phonographs and phonograph records; and store fixtures and equipment. The industry also includes pawnshops. Dealers primarily engaged in selling used motor vehicles, trailers, and boats are classified in major group 55; those primarily selling used mobile homes, in SIC 5271; and those primarily selling scrap, waste, and junk, in SIC 5093. Establishments primarily engaged in automobile repair are classified in SIC 753.

General line sporting goods stores (SIC 5941 pt.)—Establishments primarily selling a general line of sporting goods and equipment for hunting, camping, fishing, skiing, riding, tennis, golf, and other sports; and gymnasium and playground equipment.

Specialty line sporting goods stores (SIC 5941 pt.)—Establishments specializing in a maximum of four lines of sporting goods and equipment such as guns, bicycles, skiing, golfing, bowling, and billiards equipment. (In the 1972 census, specialty line sporting goods stores were defined as establishments specializing in only one line of sporting goods.)

Book stores (SIC 5942)—Establishments primarily selling new books and periodicals. Stationery and related items may also be sold. Book clubs (not engaged in publishing) primarily selling new books through the mail are included in "mail-order houses" (SIC 5961).

Stationery stores (SIC 5943)—Establishments primarily engaged in the retail sale of stationery such as paper and paper products (including printing and engraving), post cards, novelties, and school and office supplies. Stores specializing in the sale of artists' supplies are classified in SIC 5999.

Jewelry stores (SIC 5944)—Establishments primarily engaged in the retail sale of any combination of the lines of jewelry, such as diamonds and other precious stones; rings, bracelets, and brooches; sterling and plated silverware; and watches and clocks. Stores primarily engaged in watch and jewelry repair are classified in SIC 7631.

Hobby, toy, and game shops (SIC 5945)—Establishments primarily engaged in the retail sale of toys, games, and hobby kits and supplies. Establishments primarily engaged in selling artists' supplies or collectors' items, such as coins, stamps, and autographs, are classified in SIC 5999.

Camera and photographic supply stores (SIC 5946)—Establishments primarily engaged in the retail sale of cameras, film, and other photographic supplies and equipment. Establishments primarily engaged in finishing films are classified in SIC 7395.

Gift, novelty, and souvenir shops (SIC 5947)—Establishments primarily engaged in the retail sale of combined lines of gifts and novelty merchandise, souvenirs, and miscellaneous small art goods such as greeting cards and holiday decorations.

Luggage and leather goods stores (SIC 5948)—Establishments primarily engaged in the retail sale of luggage, trunks, and leather goods.

Sewing, needlework, and piece goods stores (SIC 5949)—Establishments primarily engaged in the retail sale of sewing supplies, fabrics, patterns, and other needlework accessories.

Mail-order houses (SIC 5961)—Establishments primarily selling merchandise as a result of orders received by mail. Customers are made aware of goods available for sale through catalogs, mailing pieces, advertisements in newspapers and magazines, and advertising on radio and television. Departmentalized retail stores normally with 25 employees or more and operated by mail-order houses and selling a general line of merchandise are classified in SIC 5311. Retail stores normally with less than 25 employees and operated by mail-order houses and selling a general line of merchandise are classified in SIC 5399. In some tabulations at the national level, mail-order houses are divided into subclassifications on the basis of the merchandise they sell. The subclassifications are department store merchandise, other general merchandise, and other mail-order houses.

Automatic merchandising machine operators (SIC 5962)—Establishments primarily engaged in the retail sale of products by automatic merchandising units (vending machines) which are generally located on the premises of other businesses. This industry does not include coin-operated service machines such as washers and dryers (SIC 7215), music machines and amusement game machines (SIC 7993), and lockers and scales (SIC 7299). The "establishment" is the location from which the vending route (or routes) is serviced, not the number of vending machines or the number of business locations in which vending machines are located.

Since many automatic merchandising machine operations are conducted in conjunction with the operation of manufacturing plants and of other establishments not classified in retail trade, data for "retail" automatic merchandising machine operators should not be interpreted as a measure of total sales through automatic merchandising machines. Nor do the data for "retail" automatic merchandising machine operators include sales made through automatic merchandising machines owned by establishments classified in other kinds of retail trade.

Direct selling establishments (SIC 5963)—Establishments primarily selling merchandise by house-to-house canvass, by party plan, by telephone, or from a truck. The "establishment" is the location from which the canvassers operate. Canvassers who do not have any paid help are excluded from the tabulations in this report. (The sales of the self-employed canvassers in 1977 were estimated to exceed $2 billion at the national level.) In some tabulations at the national level, direct selling organizations are divided into subclassifications on the basis of the merchandise they sell. The subclassifications are furniture, home furnishings, and equipment; mobile food service; books and stationery; and other direct selling.

Fuel and ice dealers, n.e.c. (SIC 5982)—Establishments primarily engaged in the retail sale of coal, coke, charcoal, wood, ice, or any combination of these lines. Establishments primarily selling fuel oil are classified in SIC 5983 and those primarily selling bottled gas in SIC 5984.

Fuel oil dealers (SIC 5983)—Establishments primarily engaged in the retail sale of fuel oil. Establishments primarily selling fuel oil burners are classified in SIC 5074; dealers primarily engaged in installing and servicing fuel oil burners, in SIC 1711; and fuel oil burner repair service only, in SIC 7699.

Liquefied petroleum gas dealers (SIC 5984)—Establishments primarily engaged in the retail sale of liquefied petroleum (LP) gas (bottled gas or in bulk).

Florists (SIC 5992)—Establishments primarily engaged in the retail sale of cut flowers and growing plants. Stores primarily engaged in selling seeds, bulbs, and nursery stock are classified in SIC 5261, and greenhouses and nurseries primarily engaged in growing, in SIC 0181.

Cigar stores and stands (SIC 5993)—Establishments primarily engaged in the retail sale of cigars, cigarettes, tobacco, and smokers' supplies. Many of the establishments included in this classification are operated as concessions in places of amusement, railway stations, airports, and other public places.

News dealers and newsstands (SIC 5994)—Establishments primarily engaged in the retail sale of newspapers, magazines, and other periodicals. Home delivery of newspapers by other than printers or publishers is classified in SIC 5963.

Miscellaneous retail stores, n.e.c. (SIC 5999)—Establishments primarily engaged in the retail sale of specialized lines of merchandise not elsewhere classified. This industry also includes establishments primarily engaged in selling a general line of their own or consigned merchandise at retail or at auction. Establishments primarily engaged in auctioning tangible personal property of others on a fee basis are classified in SIC 7399. In some tabulations, "Miscellaneous retail stores" are divided into subclassifications on the basis of the merchandise they sell. The subclassifications are pet shops, typewriter stores, optical goods stores, and other retail stores.

APPENDIX B. General Questions

U.S. DEPARTMENT OF COMMERCE
BUREAU OF THE CENSUS

1977 CENSUS OF DISTRIBUTIVE TRADES (RETAIL)

Important – PLEASE READ ALL ACCOMPANYING INSTRUCTIONS

NOTICE – Response to this inquiry is required by law (title 13, U.S. Code). By the same law, your report to the Census Bureau is confidential. It may be seen only by sworn Census employees and may be used only for statistical purposes. The law also provides that copies retained in your files are immune from legal process.

In correspondence pertaining to this report, please refer to this Census File Number ▼

Employer Identification Number ▼

Please complete this form and RETURN TO

BUREAU OF THE CENSUS
1201 East Tenth Street
Jeffersonville, Indiana 47132

Census use only

Unit No.	Item code	Unit No.	Item code	Unit No.	Item code

Please correct errors in name, address and ZIP code. ENTER street and number if not shown.

Item 1 – PHYSICAL LOCATION OF ESTABLISHMENT – In order to assign this establishment to the correct geographic area, the Bureau of the Census must know the actual location **which may differ from the mailing address.** *Complete items e through g.*

a. Address number and street name of physical location – *If not known, enter building name, shopping center name, or other physical location description. Do not enter P.O. box or rural route.*

Mark (X) for a, b, c, and d if same as mailing label; if different show corrections.

Same as mailing label ☐ OR ▶

b. Name of city, town, village, borough, etc. of physical location

Same as mailing label ☐ OR ▶

c. State — Same as mailing label ☐ OR ▶

d. ZIP code — Same as mailing label ☐ OR ▶

e. Type of municipality indicated in 1b — *Mark (X) one*

1 ☐ City
2 ☐ Town
3 ☐ Village
4 ☐ Borough
5 ☐ Township
6 ☐ Unincorporated
7 ☐ Other – *Specify* _____
8 ☐ Don't know

f. Is this establishment located inside the legal boundaries of the city, town, village, etc., indicated in 1b?

1 ☐ Yes
2 ☐ No
3 ☐ No legal boundaries
4 ☐ Don't know

NOTE – The area served by a post office generally does not coincide with the legal boundaries of the municipality from which the post office takes its name.

g. Name of county (Louisiana parish) of physical location

Item 2 – EMPLOYER IDENTIFICATION NUMBER

Is the Employer Identification (EI) Number printed in the upper right of the address box the SAME as that used for this establishment on its latest 1977 Employer's Quarterly Federal Tax Return, Treasury Form 941?

☐ YES
☐ NO – *Enter current EI number* ▶ ☐☐–☐☐☐☐☐☐☐ *(9 digits)*

Item 3 – OPERATIONAL STATUS

a. Mark (X) the **ONE** box which best describes this establishment at the end of 1977.

001
1 ☐ In operation
2 ☐ Temporarily or seasonally inactive
3 ☐ Ceased operation – *Give date* ▶
4 ☐ Sold or leased to another operator } *Give date* ▶ *AND name, etc.*

Figures only

Month	Day	Year

Name of new owner or operator

Number and street

City | State | ZIP code

b. How many months during 1977 did this firm or organization actively operate this establishment?

Number of months 002

Item 4 – ORGANIZATIONAL STATUS

a. Mark (X) the **ONE** box which best describes this establishment during 1977.

003
1 ☐ Individual proprietorship
2 ☐ Partnership
8 ☐ Cooperative association
5 ☐ Governmental – *Specify* _____
0 ☐ Corporation (other than specified above)
9 ☐ Other – *Specify* _____

b. Was all or part of the income of this establishment or organization exempt from Federal income taxes under Section 501 or 521 of the Internal Revenue Code?

004
1 ☐ YES
2 ☐ NO

Important – Please read

Dollar figures should be reported as illustrated. Please be careful to enter the figures in the **correct columns.** See example below:

EXAMPLE: If figure is **$1,125,628.28** ➜

	Millions (000)	Thousands (000)	Dollars (000)
• PREFERRED method.	1	125	
Acceptable method	1	125	628

Item 5 – DOLLAR VOLUME OF BUSINESS IN 1977

		Mil.	Thou.	Dol.
a. Sales of merchandise and other operating receipts **EXCLUDING** sales (or other) taxes collected	010			
b. Were sales (or other) taxes collected from customers and forwarded to taxing authorities?	011	1 ☐ YES 2 ☐ NO		
If "YES," report the amount of such taxes *(**DO NOT** include taxes in 5a above)*	012			
c. TOTAL SALES and other operating receipts including sales (or other) taxes (Sum of 5a and 5b above) ➜	013			

Item 6 – PAYROLL AND EMPLOYMENT

		Mil.	Thou.	Dol.
a. Payroll				
(1) **Total ANNUAL** payroll in 1977 before deductions	030			
(2) Payroll for the **FIRST QUARTER** of 1977	031			

b. Employment – Number of paid employees for the pay period including the 12th of the month (Include both full- and part-time employees)

032 MAR	033 MAY	034 AUG	035 NOV

Item 7 – METHOD OF SELLING – Mark (X) the **ONE** box which best describes this establishment's **principal** method of selling.

300
1 [ ] Selling at this establishment 2 [ ] Mail order (catalog selling) 3 [ ] House-to-house or telephone (direct selling) 4 [ ] Operating merchandise vending machines

Item 8 – DEPARTMENT OR CONCESSION LOCATED IN THE ESTABLISHMENT OF ANOTHER FIRM

a. Is the business at this location conducted as a department or concession (such as a shoe concession in a department store) in an establishment operated by another firm? ***Mark "YES" if*** ■ Customers normally consider this operation as part of the establishment operated by another firm, or if sales to customers are billed by that establishment.

302
1 [ ] YES
2 [ ] NO

b. If "YES," enter the name and description (kind of business) of the establishment which is operated by the other firm.

Name of establishment	Kind of business

Item 9 – DEPARTMENT OR CONCESSION LOCATED IN THIS ESTABLISHMENT

a. Were any departments or concessions, NOT OWNED BY THIS FIRM, operated within this establishment during 1977? (Exclude coin-operated amusement or vending machine space leased to others)

Mark "YES" if ■ Any department operated by another firm is normally considered by customers to be part of this establishment, or if this establishment bills customers for sales of such departments.
■ Any department is operated by a subsidiary firm or the parent firm.

304
1 [ ] YES → Enter number – *List each one in b below*
2 [ ] NO – *SKIP to item 10*

b. List each department or concession. If more space is needed, attach a separate sheet providing the same information required below.

Line No.	Name of owner or trading name of department or concession (a)	Census use only	Kind of business of department or concession (b)	Estimated sales and receipts (Exclude sales and other taxes) (c) Mil.	Thou.	Dol.	Are sales included in Item 5a? (d)	Is payroll included in Item 6? (e)
305 1		306		307			308 1 [ ] YES 2 [ ] NO	309 1 [ ] YES 2 [ ] NO
305 2		306		307			308 1 [ ] YES 2 [ ] NO	309 1 [ ] YES 2 [ ] NO
305 3		306		307			308 1 [ ] YES 2 [ ] NO	309 1 [ ] YES 2 [ ] NO

Item 15 – OWNERSHIP OR CONTROL – Refer to instructions for definitions of ownership and control.

Enter the company name and address (street name and number, city, State, ZIP code) and EI Number. If more space is needed to list companies, attach a separate sheet.

a. Is this company owned or controlled by another company? 1 [ ] YES → 2 [ ] NO

Owning or controlling company

EI No. *(9 digits)*

b. Does this company own or control any other company or companies? 1 [ ] YES → 2 [ ] NO

Owned or controlled company

EI No. *(9 digits)*

Item 16 – LOCATIONS OF OPERATION

a. Were the operations under the EI Number shown in the mailing label (or as corrected in item 2) conducted at more than one location during 1977? (Including all selling or service locations and any other facilities such as warehouses, administrative offices, etc.)

1 [ ] YES – *Answer (b) and (c)*
2 [ ] NO – *Do not complete (b) and (c) below. Review your report for completeness and accuracy and return.*

Number of locations

b. At how many separate locations were these operations conducted during 1977?

c. List each location – including main location. If more space is needed, attach a separate sheet providing the same information required below.

Census use only	Physical location of each operation *Name, address and ZIP code* (a)	1977 sales and receipts and annual and 1st quarter payrolls *Totals should equal items 5a and 6a(1) and (2)* (b)	Mil.	Thou.	Dol.	Number of paid employees for the pay period including the 12th of each month *Totals should equal corresponding entries in item 6b* (c)		Kind of business of each location *Describe* (d)
080	Name	Sales and receipts	081			084 MAR	085 MAY	
	Number and street of physical location	Total annual payroll	082			086 AUG	087 NOV	
	City / State / ZIP code	1st quarter payroll	083					088 Census use only
080	Name	Sales and receipts	081			084 MAR	085 MAY	
	Number and street of physical location	Total annual payroll	082			086 AUG	087 NOV	
	City / State / ZIP code	1st quarter payroll	083					088 Census use only
TOTALS (Sum of entries should equal corresponding entries in items 5a and 6 on page 1)		Sales and receipts				MAR	MAY	
		Total annual payroll				AUG	NOV	
		1st quarter payroll						

APPENDIX C. Kind-of-Business Titles and Reporting-Form Numbers

Listed below are retail kind-of-business titles and their corresponding reporting-form numbers. Requests for copies of any of these forms, including the inquiries used to classify establishments by kind of business, should be directed to the Business Division, Bureau of the Census, Washington, D.C. 20233.

SIC code	Title	Reporting form CB–
52	**BUILDING MATERIALS, HARDWARE, GARDEN SUPPLY, AND MOBILE HOME DEALERS**	
5211	Lumber and other building materials dealers	52A
5231	Paint, glass, and wallpaper stores	52B
5251	Hardware stores	52B

APPENDIX D. Special Inquiries From Selected Retail Trade Reporting Forms

The following special inquiries appear on the specified retail report forms as part of item 12.

GASOLINE SERVICE STATIONS, OTHER AUTOMOTIVE

(Form CB-55D)

b. Did this establishment sell gasoline in 1977? *If "YES," complete c, d, e, and f* *If "NO," SKIP to f*	363	1 ☐ YES 2 ☐ NO
		Number
c. Number of gallons of gasoline sold during 1977	364	
d. How many gasoline pumps are operated for sale of gasoline to customers?	365	
e. Does this establishment offer self-service sale of gasoline?	366	1 ☐ YES 2 ☐ NO
If "YES" –		Number
(1) Number of gallons of gasoline reported in part c above sold through self-service pumps	367	
(2) How many pumps reported in part d above are self-service pumps?	368	
f. Did this establishment sell automotive fuels other than gasoline (Include diesel) during 1977? *If "YES," complete g, h, i, j, and k* *If "NO," SKIP to k*	369	1 ☐ YES 2 ☐ NO
		Number
g. Number of gallons of other automotive fuels (Include diesel) sold during 1977.	370	
h. Number of other automotive fuel pumps (Include diesel) operated for sale of fuel to customers	371	
i. Is this establishment open 24 hours per day?	372	1 ☐ YES 2 ☐ NO
j. Does this establishment offer 24-hour truck repair service?	373	1 ☐ YES 2 ☐ NO

FUELS

(Form CB-59E)

Item 12 – SPECIAL INQUIRIES		Gallons
a. LP gas bulk storage (shell) capacity at this establishment December 31, 1977.	425	
b. Gallon sales of fuel oil and LP gas in 1977. **(1)** LP gas	426	
(2) Kerosine	427	
(3) Light fuel oil (distillate type – Nos. 1, 2, and 4)	428	
(4) Heavy fuel oil (residual type – Nos. 5 and 6)	429	
(5) Other – *Specify*	430	
c. Does this establishment sell bottled LP gas?	431	1 ☐ YES 2 ☐ NO

EATING, DRINKING, AND VENDING

(Form CB-58)

c. Type of food service — Mark (X) the **ONE** primary type of service offered at this location (the type of service from which this establishment derives the largest share of its business) 391

- (1) Table and/or booth with waiter or waitress service . . . . . 1 ☐
- (2) Counter seats and/or stand up. . . . . 2 ☐
- (3) Self-service with inside seating provided . . . . . 3 ☐
- (4) Other . . . . . 4 ☐

d. Estimated average expenditure per person per meal — *Mark (X) one* 392

- (1) Under $2.00. . . . . 1 ☐
- (2) $2.00—$4.99 . . . . . 2 ☐
- (3) $5.00—$9.99 . . . . . 3 ☐
- (4) $10.00 or more. . . . . 4 ☐

e. Is waiter or waitress service provided with patrons seated? 390 1 ☐ YES 2 ☐ NO

f. How many customers can be seated in this establishment at one time? 389 Number

g. Is this establishment operated as a concession in a stadium, arena, or other recreation or amusement place; lodging place, social club, etc., at which food is made available to the general public? 387 1 ☐ YES 2 ☐ NO

h. Does this establishment have a written contract for a franchise which entitles it to use a trade name common to all holders of the franchise? 388 1 ☐ YES 2 ☐ NO

If "YES," enter the trade name common to all franchise holders.

Franchise name

Items j and k to be completed only by merchandise vending machine operators and contract feeders.

j. Enter the percent of total sales and receipts (item 5a) derived from **manual feeding** in the following facilities in 1977.	Report in whole percents
(1) Hospitals	393 %
(2) Nursing homes	394 %
(3) Commercial and office buildings	395 %
(4) Manufacturing and industrial plants	396 %
(5) Colleges or universities	397 %
(6) Primary and secondary schools	398 %
(7) Governmental organizations (Federal, State, local)	399 %
(8) In-transit feeding (airlines, ships, railroads, buslines, etc.)	400 %
(9) Recreation and amusement (stadiums, clubs, etc.)	401 %
(10) Other — *Specify*	402 %
(11) **TOTAL manual feeding** (Sum of lines (1) through (10)) →	406 %

k. Enter the percent of total sales and receipts (item 5a) derived from the sale of the following items through **merchandise vending machines** in 1977.	Report in whole percents
(1) Tobacco products	407 %
(2) Meals and snack items (Include hot beverages, soup, ice cream, etc.)	408 %
(3) Other merchandise (e.g. soft drinks, etc.) — *Specify*	409 %
(4) **TOTAL merchandise vending machines** (Sum of lines (1) through (3)) →	405 %

DRUG STORES

(Form CB-59A)

b. Were prescriptions filled in this establishment in 1977?	410 1 ☐ YES 2 ☐ NO
c. Enter total number of prescriptions filled in this establishment in 1977 (Include new and refilled prescriptions)	Number 411
d. How many prescriptions reported in part **c** above were refills only?	412
e. Did this establishment fill any prescriptions in 1977 which were paid for by "third parties" including Government agencies, Blue Cross, Blue Shield, insurance companies, and others?	413 1 ☐ YES 2 ☐ NO
f. If "YES" to **e** above, what percent of all prescriptions filled in this establishment in 1977 were paid for by "third parties"?	Report in whole percents 414 %
g. Enter the number of pharmacists working in this establishment during the pay period including March 12, 1977 (Include any proprietors or family members who are registered pharmacists)	Number 415
h. Are any part-time pharmacists included in part g above (i.e., pharmacists who normally work less than 35 hours per week)?	416 1 ☐ YES 2 ☐ NO
i. If "YES" to **h** above, how many part-time pharmacists are included?	Number 417

FLOOR SPACE

(Forms CB-52A, CB-52B, CB-53A, CB-53B, CB-54, CB-55B, CB-56, CB-57A, CB-57B, CB-59A, CB-59B, CB-59C, CB-59D, CB-59F, CB-59G)

Item 12 – SPECIAL INQUIRIES	Square feet
a. Under-roof floor space – *Please read accompanying instructions*	
(1) Under-roof **selling** space in store	325
(2) **Total** under-roof floor space in store	326

APPENDIX E. Merchandise Lines, Codes, and Reporting-Form Numbers

Merchandise line number	Description	Form number CB—
	GROCERIES AND OTHER FOODS	
100	Dry groceries, canned goods, dairy products, meat, produce, all other food items for human consumption off the premises (include vitamins, bottled or canned soft drinks, candy, potato chips, cookies, etc. Report pet food on line 819)	All

APPENDIX F. Standard Consolidated Statistical Areas and Standard Metropolitan Statistical Areas

(Titles and definitions of the SMSA's in the State established by the Department of Commerce, Office of Federal Statistical Policy and Standards, as of December 1977)

Standard Consolidated Statistical Areas

Boston-Lawrence-Lowell, Mass.-N.H.	Consists of Boston, Mass., SMSA; Lawrence-Haverhill, Mass.-N.H., SMSA; Lowell, Mass.-N.H., SMSA; and Brockton, Mass., SMSA
Chicago-Gary, Ill.-Ind.[1]	Consists of Chicago, Ill., SMSA, and Gary-Hammond-East Chicago, Ind., SMSA
Cincinnati-Hamilton, Ohio-Ky.-Ind.	Consists of Cincinnati, Ohio-Ky.-Ind., SMSA, and Hamilton-Middletown, Ohio, SMSA
Cleveland-Akron-Lorain, Ohio	Consists of Cleveland, Ohio, SMSA; Akron, Ohio, SMSA; and Lorain-Elyria, Ohio, SMSA
Detroit-Ann Arbor, Mich.	Consists of Detroit, Mich., SMSA, and Ann Arbor, Mich., SMSA
Houston-Galveston, Tex.	Consists of Houston, Tex., SMSA, and Galveston-Texas City, Tex., SMSA
Los Angeles-Long Beach-Anaheim, Calif	Consists of Los Angeles-Long Beach, Calif., SMSA; Anaheim-Santa Ana-Garden Grove, Calif., SMSA; Riverside-San Bernardino-Ontario, Calif., SMSA; and Oxnard-Simi Valley-Ventura, Calif., SMSA
Miami-Fort Lauderdale, Fla	Consists of Miami, Fla., SMSA, and Fort Lauderdale-Hollywood, Fla., SMSA
Milwaukee-Racine, Wis.	Consists of Milwaukee, Wis., SMSA, and Racine, Wis., SMSA
New York-Newark-Jersey City, N.Y.-N.J.-Conn.[2]	Consists of New York, N.Y.-N.J., SMSA; Nassau-Suffolk, N.Y., SMSA; Newark, N.J., SMSA; Jersey City, N.J., SMSA; New Brunswick-Perth Amboy-Sayreville, N.J., SMSA; Paterson-Clifton-Passaic, N.J., SMSA; Long Branch-Asbury Park, N.J., SMSA; Stamford, Conn., SMSA; and Norwalk, Conn., SMSA
Philadelphia-Wilmington-Trenton, Pa.-Del.-N.J.-Md.	Consists of Philadelphia, Pa.-N.J., SMSA; Wilmington, Del.-N.J.-Md., SMSA; and Trenton, N.J., SMSA
San Francisco-Oakland-San Jose, Calif.	Consists of San Francisco-Oakland, Calif., SMSA; San Jose, Calif., SMSA; and Vallejo-Fairfield-Napa, Calif., SMSA
Seattle-Tacoma, Wash.	Consists of Seattle-Everett, Wash., SMSA, and Tacoma, Wash., SMSA

Standard Metropolitan Statistical Areas

Abilene, Tex.	Consists of Callahan, Jones, and Taylor Counties, Tex.
Akron, Ohio	Consists of Portage and Summit Counties, Ohio
Albany, Ga.	Consists of Dougherty and Lee Counties, Ga.
Albany-Schenectady-Troy, N.Y.	Consists of Albany, Montgomery, Rensselaer, Saratoga, and Schenectady Counties, N.Y.
Albuquerque, N. Mex.	Consists of Bernalillo and Sandoval Counties, N. Mex.
Alexandria, La.	Consists of Grant and Rapides Parishes, La.
Allentown-Bethlehem-Easton, Pa.-N.J.	Consists of Carbon, Lehigh, and Northampton Counties, Pa.; and Warren County, N.J.
Altoona, Pa.	Coextensive with Blair County, Pa.
Amarillo, Tex.	Consists of Potter and Randall Counties, Tex.
Anaheim-Santa Ana-Garden Grove, Calif.	Coextensive with Orange County, Calif.
Anchorage, Alaska	Coextensive with Anchorage Division, Alaska
Anderson, Ind.	Coextensive with Madison County, Ind.
Ann Arbor, Mich.	Coextensive with Washtenaw County, Mich.
Anniston, Ala.[3]	Coextensive with Calhoun County, Ala.
Appleton-Oshkosh, Wis.	Consists of Calumet, Outagamie, and Winnebago Counties, Wis.
Asheville, N.C.	Consists of Buncombe and Madison Counties, N.C.
Atlanta, Ga.	Consists of Butts, Cherokee, Clayton, Cobb, De Kalb, Douglas, Fayette, Forsyth, Fulton, Gwinnett, Henry, Newton, Paulding, Rockdale, and Walton Counties, Ga.

See footnotes at end of appendix.

SMSA'S—Con.

Atlantic City, N.J.	Coextensive with Atlantic County, N.J.
Augusta, Ga.-S.C.	Consists of Columbia and Richmond Counties, Ga., and Aiken County, S.C.
Austin, Tex.[4]	Consists of Hays, Travis, and Williamson Counties, Tex.
Bakersfield, Calif.	Coextensive with Kern County, Calif.
